South From Granada:

South from Granada Gerald Brenan, 1958 Gerald Brenan is generally regarded as the greatest of English writers about Spain South from Granada describes the essence of a remote rural area before the Civil War with vivid sympathy Here brought back to life are the festivals and folk lore of the Sierra Nevada the rivalries romances and courtship rituals the village customs superstitions and characters Equally compelling are chapters on Granada in the twenties food and the Phoenicians the cheap brothels and archaeological remains of Almeria the stark but haunting mountain scenery and even a visit from Virginia Woolf The result was acclaimed on publication as a masterpiece it remains a classic richly evocative account of a lost way of life

Anglo-American Hispanists and the Spanish Civil War S. Faber, 2008-08-04 In this book Faber assesses the long term impact of the Spanish Civil War on Hispanic Studies as an academic field in the United States and Great Britain Combining institutional history with biography the book gives a compelling account of the dilemmas that the war posed for four Hispanists who turned their love of Spain into their life s work

Literary Narratives and the Cultural Imagination María Odette Canivell Arzú, 2018-12-17 In Literary Narratives and the Cultural Imagination King Arthur and Don Quixote as National Heroes the author examines traditional Arthurian and Cervantine literary narratives to discuss how the two literary figures became paladins of their respective nations Whereas the former bestows upon the homeland a positive image of Britain based on military might a glorious past and a promise of return the latter contributes to a negative image of Spain based on a narrative of defeat and faded glory In the analysis of the political intentions behind the literature that gave wings to the rise as paragons of these very famous literary characters a semblance of the national imaginaries of the countries of their birth appears Indeed the tradition of Waterloo and the tradition of La Mancha are polar opposites in their Weltanschauung and they only have in common that both heroes Arthur and Quijote are depicted as paladins of justice benefactors and redeemers of their land of birth It is this idealized view of what is possibly the figment of a writer s or many different writers pen that astonishes the reader for behind it lies an intention to market for internal and external consumption both literary creations exceeding the boundaries of the creative fiction that invented them to transform them into myths and political symbols of their respective nations
