Women's Utopias in British and American Fiction Nan Bowman Albinski,2019-11-21 Utopian writing offers a fascinating panorama of social visions and the related forms of dystopia and anti utopian satire extend this into the range of social nightmares Originally published in 1988 this comparative study of utopian fiction by British and American women writers demonstrates the continuity of a well established but little known tradition emphasising its range and diversity and providing ample evidence of women s aspirations and documenting the restrictions and exclusions in private and public life that their novels challenge Historically the growth of each national tradition is traced in relation to social and political movements particularly the suffrage movement and contemporary feminism Comparatively the quite different responses of British and American women to what are in many instances the same social problems are examine in the light of changing expectations Definitions of human nature and gender relationships are assessed on a nature culture continuum as a means of understanding this change Women s attitudes to their social and political roles their working lives to sexuality marriage and the family are reflected in their visions of fruitful change and so also is the impact of two world wars socialism and fascism the debate on peaceful uses of nuclear energy and fears of a nuclear holocaust The South Western Reporter ,1925

Mystifying China's Southwest Ethnic Borderlands Yuqing Yang,2017-12-28 The Confucian notion of Harmony with
difference he er bu tong has great political and cultural resonance in contemporary China which propagates the quest for a
pluralist harmony between cultural and ethnic components of society In an attempt to examine a range of responses to this

state envisioned ideal of accommodating ethnic differences this book analyzes the literary and cultural discourses that surround three minority regions in Southwest China Dali which was once the location of the ancient Nanzhao and Dali Kingdoms the homeland of the matrilineal Mosuo known as the Country of Women and the Tibetan areas associated with utopian Shangri La This book borrows Foucault's concept of heterotopia to address the contradictory and often simultaneously existing views of the minority region as rich treasure house of tradition and as intractable barrier to modern development which combine to give rise to productive tensions in scholastic and artistic creations Through reconstituting and performing the myths and legends of or about minority culture the representations of the three places turn into heterotopias which are posed between the mythical and the real in different ways Functioning as a self reflective mirror they simultaneously offer images of the actual habitats of the ethnic other which have been subject to socialist projects of modernity and become a viable means by which to exert material effects on the real landscape Products of a fascination with alternative social spaces the three mystified lands all contain conceptualizations of harmony be it spiritual gender based or ecological that are conceivably absent in the imperfect actuality of the Chinese heartland In conclusion these aesthetically constructed spaces of the other negotiate and enrich the discourse of Harmony with difference reacting to ethnic politics in PRC history and creating an audience that grows attentive to the traditions of minorities

America, 1934 **In Search of the Utopian States of America** Verena Adamik, 2020-12-01 This book endeavours to understand the seemingly direct link between utopianism and the USA discussing novels that have never been brought together in this combination before even though they all revolve around intentional communities Imlay's *The Emigrants* 1793 Hawthorne's *The Blithedale Romance* 1852 Howland's *Papas Own Girl* 1874 Griggs's *Imperium in Imperio* 1899 and Du Bois's *The Quest of the Silver Fleece* 1911 They relate nation and utopia not by describing perfect societies but by writing about attempts to immediately live radically different lives Signposting the respective communal history the readings provide a literary perspective to communal studies and add to a deeply necessary historicization for strictly literary approaches to US utopianism and for studies that focus on Pilgrims Puritans Founding Fathers as utopian practitioners This book therefore highlights how the authors evaluated the USA's utopian potential and traces the nineteenth century development of the utopian imagination from various perspectives
