Rubble Jeff Byles, 2007-12-18 From the straight boulevards that smashed their way through rambling old Paris to create the city we know today to the televised implosion of Las Vegas casinos to make room for America s ever grander desert of dreams demolition has long played an ambiguous role in our lives In lively colorful prose Rubble rides the wrecking ball through key episodes in the world of demolition Stretching over more than five hundred years of razing and toppling this story looks back to London s Great Fire of 1666 where self deputized wreckers artfully blew houses apart with barrels of gunpowder to halt the furious blaze and spotlights the advent of dynamite courtesy of demolition s patron saint Alfred Nobel that would later fuel epochal feats of unbuilding such as the implosion of the infamous Pruitt Igoe housing complex in St Louis Rubble also delves beyond these bravura blasts to survey the world jarring invention of the wrecking ball the oddly stirring ruin of New York s old Pennsylvania Station that potent symbol of the wrecker run amok and the ever busy bulldozers in places as diverse as Detroit Berlin and the British countryside Rich with stories of demolition s quirky impresarios including Mark Loizeaux the world famous engineer of destruction who brought Seattle s Kingdome to the ground in mere seconds this account makes first hand forays to implosion sites and digs extensively into wrecking s little known historical record Rubble is also an exploration of what happens when buildings fall when monuments topple into memory and when destructive creativity tears down to build again It unearths the world of demolition for the first time and along the way throws a penetrating light on the role that destruction must play in our lives as a necessary prelude to renewal Told with arresting detail and energy this tale goes to

the heart of the scientific social economic and personal meaning of how we unbuild our world Rubble is the first ever biography of the wrecking trade a riveting character filled narrative of how the black art of demolition grew to become a multibillion dollar business an extreme spectator sport and a touchstone for what we value what we disdain who we were and what we wish to become *Major Operation* James White,1971 James White himself a doctor has long been fascinated by the problem that will exist when it comes to treating other life forms Taking as the center of operations his magnificent creation Sector General he has written a body of stories based on the drama and tension that inevitably exist in any hospital But the excitements that occur at Sector General are necessarily unique For no other hospital on or off the Earth encounters the wildly diverse problems created by the hundreds of different alien life forms that turn up at Sector General entryports for treatment Being a doctor human or otherwise in this establishment requires a degree of adaptability Hippocrates never dreamed of And the implications of hat is accomplished or not accomplished go far beyond medical practice Back cover

Dual Momentum Investing: An Innovative Strategy for Higher Returns with Lower Risk Gary Antonacci, 2014-11-21. The investing strategy that famously generates higher returns with substantially reduced risk presented by the investor who invented it. A treasure of well researched momentum driven investing processes. Gregory L. Morris, Chief Technical Analyst and Chairman, Investment Committee of Stadion Money Management LLC and author of *Investing with the Trend*. Dual Momentum Investing details the author's own momentum investing method that combines U.S. stock, world stock and aggregate bond indices, a formula proven to dramatically increase profits while lowering risk. Antonacci reveals how momentum investors could have achieved long run returns nearly twice as high as the stock market over the past 40 years while avoiding or minimizing bear market losses and he provides the information and insight investors need to achieve such success going forward. His methodology is designed to pick up on major changes in relative strength and market trend. Gary Antonacci has over 30 years experience as an investment professional focusing on under exploited investment opportunities. In 1990 he founded Portfolio Management Consultants which advises private and institutional investors on asset allocation, portfolio optimization and advanced momentum strategies. He writes and runs the popular blog and website optimalmomentum.com. Antonacci earned his MBA at Harvard.

Doing IT Krista Scott-Dixon, 2004. From the boom of the 1990s to the bust of early 2000, women have been carving out careers in information technology. For these IT workers it is not just about earning a living but about applying their technological, scientific and engineering skills and knowledge. *Doing IT* demonstrates that women fill a wide variety of these technological occupations yet continue to face barriers preventing them from reaching their full professional potential. Scott-Dixon examines the IT environment's traditional workplace that keeps gender, race, class, ability and pay inequities firmly in place. Drawing on personal interviews, she shows that despite these barriers, women in IT bring passion to their jobs and draw on their wit, intelligence and creative resourcefulness to shape their career paths. *Doing IT* is an invigorating conversation among women in search of greater employment opportunities.
