Steeped in Two Cultures Fritz Redlich,1971      California Dreaming Nahum Karlinsky,2012-02-01 The citrus industry of Palestine has often been associated with the myths and ideals of the Labor Movement and its Zionist Socialist ideology The Jaffa orange like the young pioneer and the collective kibbutz was emblematic of a colonizing meta narrative that marginalized or even denounced the private entrepreneurs both Arabs and Jews who were the true founders and proponents of the flourishing citrus industry in Palestine California Dreaming reveals that these private entrepreneurs regarded the California citrus industry as their primary model of emulation Utilizing an innovative multidisciplinary approach Nahum Karlinsky vividly reconstructs the social fabric economic structure and ideological tenets of the Jewish citrus industry of Palestine in the early twentieth century Also accentuated is the role of Palestinian Arab citrus growers whose industry predated that of their Jewish counterparts and the complex relationship between the two national sectors that operated side by side      *A Cuckoo in the Nest of Culture* Lorne Fienberg,1988      **The Publishers Weekly** ,1972      *The Journal of European Economic History* ,1982      **Architecture in Fictional Literature: Essays on Selected Works** Nevnihal Erdoğan,2021-12-24 The art of architecture is an important aesthetic element that can leave a lasting impression in one s mind about the values of a society Today s architectural art education and culture have gradually turned into engineering practices and more technical pursuits Architecture in Fictional Literature is a book written with the aim of understanding the concept of living spaces as portrayed in works of fiction and to open the doors to a new perspective for readers on the art of architecture It is a collection of essays written by educators and literary critics about how architecture is presented in 28 selected literary works of fiction These selected works which include well known works such as Hugo s Hunchback of Notre Dame Kafka s The Castle Swift s Gulliver s Travels Tolkien s The Lord of the Rings Carroll s Alice in Wonderland Fitzgerald s The Great Gatsby among many others collectively attempt to illustrate facets of human life in a lucidly expressive way while also having an architectural background added in the narrative Each essay is unique and brings a diverse range of perspectives on the main theme while also touching on some niche topics in this area such as spatial analysis urban transformation and time period settings all of which have exploratory potential With this collection the contributors aspire to initiate the transformation of architectural education by including a blend of literary criticism By building a foundation of architectural aesthetics they hope to bridge the gap between the artist and the architect while also inspiring a new generation of urban planners landscape artists and interior designers to consider past works when designing living spaces Architecture in Fictional Literature is also essential to any enthusiast of fictional works who wants to understand the fictional portrayal of living spaces and architecture in literature      *Dissent, Revolution and Liberty Beyond Earth* Charles Cockell,2016-03-10 This volume provides an in depth discussion on the central question how can people express and survive dissent and disagreement in confined habitats in space The discussion is an important one because it could be that the

systems of inter dependence required to survive in space are so strong that dissent becomes impossible John Locke originally said that people have a right to use revolution to overthrow a despotic regime But if revolution causes violence and damage that causes depressurisation with the risk of killing many people is it even permissible to have a revolution How then are people to express their liberty or dissatisfaction with their rulers The emergence of structures of dissent and disagreement is an essential part of the construction of a framework of liberty in space revolution is just the extreme example and thus the topic deserves in depth and immediate attention Even today the way in which we assemble organisations and corporations for the government and private exploration of space must take into account the need for mechanisms to allow people to express dissent
