the principles of ore separation new concentrating devices have been invented and installed in the mills and the mills themselves have been greatly improved For these reasons the time seems to have come to bring the subject up to date When this present work was started in October 1906 it was thought that something in the nature Of a small supplement or appendix would suffice and on this basis the collection Of material was under taken It soon became apparent that the new work would rank in size with Volumes I and II and hence naturally receive the titles Of Volumes III and IV The idea of revising and rewriting Volumes I and II seemed to be prohibited by reason of the fact that the machines and the mills are so completely inter woven on almost every page that no method of revision appeared adequate to the task The new work has therefore taken the form of Volumes III and IV in which the subject matter of Volumes I and II is added to chapter by chapter In selecting machines for description the effort has been made to take only those machines that have found practical application The four volumes have been indexed together and the complete index is inserted in each volume Another feature of the book that will be noted is the insertion Of the mill numbers in a prominent place at the top Of the pages in Chapter XLI It is hoped that both of these changes will add to the convenience and usefulness Of the book In Chapter XLI there will be found described ninety four mills representing milling practice in the principal mining centers of the world Many of these mills are given in great detail and contain figures as to costs power water etc that should be of the utmost value Care has been taken in indexing to make this information available Throughout this chapter tonnages are given in tons of pounds unless otherwise stated About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Ore Dressing** Robert Hallowell Richards, 2015-09-11 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
