Handbook of Museum Textiles, Volume 1 Seiko Jose, Sabu Thomas, Pintu Pandit, Ritu Pandey, Vandana Gupta, 2022-12-28. *Handbook of Museum Textiles*. Textiles have been known to us throughout human history and played a vital role in the lives and traditions of people. Clothing was made by using different materials and methods from natural fibers. There are different varieties of textiles, out of which certain traditional textiles, archaeological findings, or fragments are of cultural, historical, and sentimental value, such as tapestries, embroideries, flags, shawls, etc. These kinds of textiles, due to their historical use and environmental factors, require special attention to guarantee their long-term stability. Textile conservation is a complex, challenging, and multi-faceted discipline, and it is one of the most versatile branches of conservation. Volume 1 of the *Handbook of Museum Textiles* focuses on conservation and cultural research and addresses the proper display, storage, upkeep, handling, and conservation technology of textile artifacts to ensure their presence for coming generations. Spread over 19 chapters, the volume is a unique body of knowledge of theoretical and practical details of museum practices. Chapters on textile museums, the importance of cultural heritage conservation, and documentation of textiles are covered in depth. Conservation case studies and examples are highlighted in many chapters. Management practices and guidelines to pursue a career in the museum textile field have been given due attention. The respective authors of the chapters are of international repute and are
