Bonded to the Abuser Amy J.L. Baker,Mel Schneiderman,2015-05-07 Tens of thousands of children are removed from home each year due to some form of child maltreatment usually physical neglect physical abuse or sexual abuse although sometimes for emotional abuse as well An additional significant number of children are victims of child maltreatment but remain in their home Extensive research reveals the far reaching and long lasting negative impact of maltreatment on child victims including on their physical social emotional and behavioral functioning One particularly troubling and complicated aspect is how the child victim forms and maintains a traumatic bond with his abuser even becoming protective and defensive of that person despite the pain and suffering they have caused This book will provide the reader with the essential experience of understanding how children make meaning of being maltreated by a parent and how these traumatic bonds form and last

Through an examination of published memoirs of abuse the authors analyze and reveal the commonalities in the stories to uncover the ways in which adult victims of childhood abuse understand and digest the traumatic experiences of their childhoods This understanding can inform interventions and treatments designed for this vulnerable population and can help family and friends of victims understand more fully the maltreatment experience from the inside out **History of the Free Methodist Church of North America** Wilson Thomas Hogue,1915 The Tri-State Medical Journal and Practitioner ,1898
