collection of essays displays the talent and insight that make the Panshins the obvious and worthy successors to Damon Knight and James Blish in the field of science fiction and fantasy criticism The Panshins document the evolution of a new and fruitful paradigm and offer a challenge to all conventional opinion about science fiction They demonstrate that the conception of science fiction as fiction about science was fatally compromised from the outset They trace the continuity of science fiction with man s most ancient and meaningful stories the great fantasy of the past and find this continuity in symbols of transcendent mystery Nearly half of this book is devoted to studying the works of Robert Heinlein extending and reconsidering the analysis begun in Heinlein in Dimension and concluding with a long discussion of The Number of the Beast The Panshin team applies theories of human psychological development to show the deeper meanings of the stories of Heinlein and other authors They say In the mirror of a science fiction story may be seen a reflection of the author In the mirror of science fiction stories may be seen a reflection of an era And in our reading of science fiction the stories we choose and what we make of them may be seen a reflection of ourselves We read science fiction to know ourselves better

Hall,1981 **Occult Significance of Forgiveness** Sergei O. Prokof'ieff,2004-11-04 A survey of recent history reveals the gloomy picture of an ongoing series of conflicts wars and general turmoil Consequently the human emotional landscape is littered today with angry bitter and vengeful thoughts emotions and actions Even our modern justice systems are preoccupied only with finding and proving guilt and dealing out retribution doing little to remedy the tragic situation Nevertheless many individuals and groups have always sought ways to break this vicious cycle of recrimination When faced with the question of what we can do to change the world for the better one of the most radical and challenging answers is to begin forgiving others for what they have done In this powerful and moving book Prokofieff shows how the forces that lead to forgiveness can be developed consciously and freely Without preaching the morality of forgiveness he presents spiritual facts that speak for themselves From Tsarist Russia and the concentration camps of Nazi Germany to the infighting during the early years of the Anthroposophical Society the author offers striking examples of those who have been able to forgive frequently terrible crimes He provides multilayered analyses and shows the beneficial consequences of each act of forgiveness As he develops his theme the importance of forgiving not simply for personal salvation but for the advancement of human evolution is revealed in all its healing truth Now available in paperback The Occult Significance of Forgiveness has been read and loved by thousands of readers for years It is perhaps the most valuable accessible and succinct of Prokofieff s works on inner development [The Theosophical Path](#) Katherine Augusta Westcott Tingley,1921
