ideologically to political openings evaluate political opportunities and assess the feasibility of elections The author tells the story of two secular parties that fairly represent the secular spectrum examining the options the leftist parties chose in order to survive the competition with strong Islamist and state led parties These are the Tagammu Party a leftist opposition which shifted towards statism by political liberalization in the 1980s and the Revolutionary Socialists an opposition that diverted in an anti institutional direction after democratization in 2011 2013 These opposing pathways seem to challenge the inclusion moderation hypothesis Introducing the Moderation Theory to secular actors opens a broad spectrum in which to comprehend the under studied field of Arab secularism and rethinking and at the same time the scope of moderation hypotheses Consequently the author argues that democratization can lead to de moderation The Political Left in Egypt will appeal to advanced undergraduate and postgraduate students interested in Middle Eastern politics and especially Egyptian politics and secular left politics
