Specialty Polymer Additives:

Specialty Polymer Additives S. Al Malaika, Amos Golovoy, C. A. Wilkie, 2001-08-15 This is an invaluable resource of state of the art reviews on specialty polymer additives for polymer scientists technologists chemists and engineers The book provides a definitive reference of the principles and industrial applications of specialty polymer additives written by world leading authorities in the field The authors were commissioned to write comprehensive and up to date review chapters with the aim of providing a convenient entry to the contemporary primary literature Coverage includes synthetic and biological antioxidants polymer stabilisers and stabilisation plastics flammability and fire retardants nanocomposites phosphorescent additives

Polymer Additive Analytics Jan C. J. Bart, 2006

Fluoropolymer Additives Sina Ebnesajjad, Richard Morgan, 2011-12-05 In this first book on an additive group of growing importance the authors review the commercial additives available on the market The applications chapters provide you with a step by step description of techniques to select and incorporate these additives in various products Engineers and scientists involved in polymer processing need practical information about these additives their applications and proper and safe handling Until now much of this information has been difficult to obtain because of commercial secrecy In recent years the applications of fluoropolymer additives have expanded significantly with even the meaning of fluoropolymer additives expanding from relatively the narrow definition of PTFE powder fillers to a wide variety of fluoropolymer elastomers used as a processing aid for plastics processing such as extrusion injection molding and film blowing The benefits of fluoropolymer additives used in plastics are the elimination of sharkskin defects increases in process speed and output up to 20% the reduction of die build up the reduction of gels and optical defects etc In addition fluoropolymer additives are being increasingly used in inks lubricants and coatings For example in the coating industry fluoropolymer additives can increase the life cycle of exterior coatings due to their excellent weatherability and subsequently increase the time between recoats Fluoropolymer additives are becoming more widely used with key applications including use as a polymer processing aid increasing speed and reducing faults and as an additive to lubricants inks and coatings This book is the only practical guide available to the selection and use of fluoropolymer additives and will help readers to optimize existing fluoropolymer applications and implement new ones Fluoropolymers are known as an area where detailed information is hard to come by In this book two former DuPont employees provide a wide range of industry sectors with the essential practical information and data they need to realize the full benefits of fluoropolymer additives Written for practicing engineers Ebnesajjad and Morgan take a highly practical approach to the subject based on real world experience and case studies

Flame Retardant Polymer Nanocomposites Alexander B. Morgan, Charles A. Wilkie, 2007-04-13 *Flame Retardant Polymer Nanocomposites* takes a comprehensive look at polymer nanocomposites for flame retardancy applications and includes nanocomposite fundamentals theory design synthesis characterization as well as polymer flammability fundamentals with emphasis on how nanocomposites affect flammability The

book has practical examples from literature patents and existing commercial products Readers can design new work based upon the material in the book or use it as a handy reference for interpreting existing work and results
