Multi-Sited Ethnography Mark-Anthony Falzon, 2016-04-15 Multi Sited Ethnography has established itself as a fully fledged research method among anthropologists and sociologists in recent years It responds to the challenge of combining multi sited work with the need for in depth analysis allowing for a more considered study of social worlds This volume utilizes cutting edge research from a number of renowned scholars and empirical experiences to present theoretical and practical facets charting the development and direction of new research into social phenomena Owing to its clear contribution to a rapidly emerging field Multi Sited Ethnography will appeal to anyone studying social actors including scholars within human geography anthropology sociology and development and migration studies Factions, Friends and Feasts Jeremy Boissevain, 2013-03-01 Drawing on field research in Malta Sicily and among Italian emigrants in Canada this book explores the social influence of the Mediterranean climate and the legacy of ethnic and religious conflict from the past five decades Case studies illustrate the complexity of daily life not only in the region but also in more remote academe by analysing the effects of fierce family loyalty emigration and the social consequences of factionalism patronage and the friends of friends networks that are widespread in the region Several chapters discuss the social and environmental impact of mass tourism how locals cope and the paradoxical increase in religious pageantry and public celebrations The discussions echo changes in the region and the related development of the author s own interests and engagement with prevailing issues through his career *Contemporary Western Ethnography and the Definition of Religion* Martin D. Stringer, 2011-06-09 *Malta* David M. Boswell, Brian W. Beeley, 1998 Malta is an archipelago consisting of three islands Gozo Comino and Malta itself located in the central Mediterranean The strategic location of the islands has meant that they have long enjoyed an importance out of all proportion to their small size Malta has a history of control by colonial powers and this is reflected in the ethnic background of its population which comprises Arabs Normans Sicilians English Spanish and Italians Occupied at various periods by the Thoenicians the Greeks the Carthaginians the Romans the Knights of St John and the French Malta became a crown colony of Britain in 1814 During the Second World War the islands played a crucial role for the Allies and the bravery shown by the people prompted King George VI to award the entire colony the George Cross Britain s highest honour for valour The nation achieved full independence in 1964 and became a republic in 1974 This revised bibliography fully updates the first edition published in 1985 and pays particular attention to Malta s chequered history and strategic position *The Mankind Quarterly* Council for Social and Economic Studies (U.S.), 1980 **Choice**, 1980 *An Anthropological Analysis of Local Politics and Patronage in a Pakistani Village* Stephen M. Lyon, 2004 Asymmetrical power relationships are found throughout Pakistan s Punjabi and Pukhtun communities These relationships must be examined as manifestations of cultural continuity rather than as separate structures The various cultures of Pakistan display certain common cultural features which suggest a re examination of past analytical divisions of tribe and peasant societies This book looks at the ways power is

expressed accumulated and maintained in three social contexts kinship caste and political relationships These are embedded within a collection of hybridising cultures Socialisation within kin groups provides the building blocks for Pakistani asymmetrical relationships which may be understood as a form of patronage As these social building blocks are transferred to non kin contexts the patron client aspects are more easily identified and studied State politics and religion are examined for the ways in which these patron client roles are enacted on much larger scales but remain embedded within the cultural values underpinning those roles
