Modes of Scriptural Interpretation in Early Judaism and Early Christianity Benjamin Edsall,Joseph Verheyden,Jens Schröter,2025-12-14 The present contributions examine three modes of interpretation rewriting appropriation and commentary within early Jewish and Christian texts As is well known scriptural interpretation was important even central for the process of identity formation in early Jewish and Christian communities The modes of scriptural interpretation covered in the present volume not only betray deep commonalities in their approach and discursive field but also illuminate the practical side of interpretation to which communal and or polemical application is intrinsic These different modes co exist operating side by side across the early period rather than conforming to any clear developmental scheme In the end the category of interpretation itself turns out to be capatious including material from sectarian Halakhah to Valentinian mythology to Rabbinic heresiological discourse Further contributors note that in a myriad of ways we remain the heirs of the interpretive projects explored here Attending to the reception of scriptural texts in their ancient interpretation offers the opportunity for scholars to highlight their possibilities promises and difficulties opening them for others with ears to hear
