Awkward Intelligence Katharina A. Zweig, 2022-10-25 An expert offers a guide to where we should use artificial intelligence and where we should not Before we know it artificial intelligence AI will work its way into every corner of our lives making decisions about with and for us Is this a good thing There s a tendency to think that machines can be more

objective than humans can make better decisions about job applicants for example or risk assessments In *Awkward Intelligence* AI expert Katharina Zweig offers readers the inside story explaining how many levers computer and data scientists must pull for AI's supposedly objective decision making She presents the good and the bad AI is good at processing vast quantities of data that humans cannot but it's bad at making judgments about people AI is accurate at sifting through billions of websites to offer up the best results for our search queries and it has beaten reigning champions in games of chess and Go But drawing on her own research Zweig shows how inaccurate AI is for example at predicting whether someone with a previous conviction will become a repeat offender It's no better than simple guesswork and yet it's used to determine people's futures Zweig introduces readers to the basics of AI and presents a toolkit for designing AI systems She explains algorithms big data and computer intelligence and how they relate to one another Finally she explores the ethics of AI and how we can shape the process With *Awkward Intelligence* Zweig equips us to confront the biggest question concerning AI where we should use it and where we should not

Best Sellers, 1979 *Detained* Ainslie Paton, 2013-09-01 From one of Australia's hottest new authors comes a story about an international scandal a billionaire and a fearless reporter who might just save the day Confined in a cold dull room in the depths of a Shanghai airport a journalist chasing a career break and a businessman with a shadowy past play a game of truth or dare deliberately not exchanging names They tell each other their most painful secrets and burning desires One dare leads to a kiss and a wild night of illicit passion setting off a dangerous sequence of events bringing exposure and disgrace Only the brutal truth can save them But it will also rip them apart And it will take more than daring before they can build a new truth together

Alli Hendriks, 2016-12-30 Essay from the year 2016 in the subject Politics Topic Public International Law and Human Rights grade A Macquarie University course Law language English abstract Immigration detention in Australia is a contentious and complex issue that cannot simply be analysed on the basis of moralities or politics To determine whether Australia's immigration policy as manifested in the Migration Act 1958 would constitute a breach of article 7 of the International Covenant on Civil and Political Rights ICCPR both the indefinite duration of detention and the

conditions encountered at Villawood Immigration Detention Centre VIDC must be reasoned Article 7 of the ICCPR a non derogable right in accordance with article 4 2 provides that no one shall be subjected to torture or to cruel inhuman or degrading treatment or punishment VIDC is an onshore processing centre based 27km from Sydney s CBD and has come under scrutiny for its treatment of asylum seekers especially for mental health related issues and the long term detention of approximately fifty children The discussion that follows addresses both the issues of physical conditions in VIDC and justifications for indefinite detention *The Phanerogams of the Juan Fernandez Islands* Carl Skottsberg,1921
