Visible And Invisible Group:

The Visible and Invisible Group Yvonne M. Agazarian, 2018-04-17 Understanding the psychodynamics of groups has derived from the two separate strands of theory and practice resulting in two separate disciplines group psychotherapy and group dynamics Present day group psychotherapy derives mainly from psychoanalytic theory and Bion's early experiences with wartime groups and has been developed from the work of clinicians who practice group psychotherapy as a form of treatment Group dynamics theory and practice on the other hand have arisen largely from the work of social scientists like Kurt Lewin have been researched in the field and in the laboratory and have been applied to groups as arenas for leadership training and behavioral change The Visible and Invisible Group synthesizes these psychoanalytic and group approaches to group life and offers practical guidelines to the group psychotherapist The authors advocate the simultaneous use of two perspectives the psychoanalytic perspective for observing the visible group of people and their interactions and a General Systems Field Theory perspective for observing the invisible group as a whole

The Emerald Handbook of Group and Team Communication Research Stephenson J. Beck, Joann Keyton, Marshall Scott Poole, 2021-11-05 This volume considers the current research of group communication scholars provides an overview of major foci in the discipline and points toward possible trajectories for future scholarship It establishes group communication's central role within research on human behaviour and fosters an identity for group communication researchers

The Survey, 1923 The Individual and the Group Malcolm Pines, 2012-12-06 Malcolm Pines and Lise Rafaelsen The Seventh International Congress of Group Psychotherapy organized in Copenhagen by the International Association of Group Psychotherapy was one of the largest and most representative congresses on this subject that has yet been held Probably for the first time we achieved the declared aim of the International Association that of bringing together representatives of the different approaches to group psychotherapy in the same forum to allow for communication exchange and development of our relationships Previous congresses have been less representative and it seems to augur well for the future of the Association and of its congresses that there was this strong force and wish for unification and for exchange within the field of group psychotherapy The Congress theme The Individual and the Group Boundaries and Interrelations in Theory and Practice was chosen because it gave an opportunity once again to examine the very basis for group psychotherapy as theory and as practice The basic theme stated in the opening papers by Professor Marie Jahoda and Professor James Anthony was replayed daily with new developments and variations according to the theoretical position of each subsequent speaker

Autobiography of a Theory Yvonne Agazarian, Susan Porter Gantt, 2000 Annotation In this book Yvonne Agazarian traces the evolution of her ideas and their application to create a meta theory the theory of living human systems Autobiography of a Theory follows Agazarian as she thinks her way through different stages creating a theoretical background for SAVI System for Analyzing Verbal Interaction which she developed with Anita Simon developing a theory of the Invisible Group for the book she wrote
