Visual Piety:

Visual Piety David Morgan, 1999-09-25 Drawing from the fields of music sociology theology philosophy psychology and aesthetics VISUAL PIETY is the first book to bring to specialist and lay reader alike an understanding of religious imagery's place in the social formation and maintenance of everyday American life from Warner Sallman's Head of Christ to velvet renditions of DaVinci's Last Supper to prayer card illustrations and much more 69 illustrations

Paul's Visual Piety J. M. F. Heath, 2013-05-02 This book is at the interface between Visual Studies and Biblical Studies For several decades scholars of visuality have been uncovering the significance of everyday visual practices in the sense of learnt habits of viewing and the assumptions that underpin them They have shown that these play a key role in forming and maintaining relationships in religious devotion and in social life The Visual Studies movement brought issues such as these to the attention of most humanities disciplines by the end of the twentieth century but until very recently made little impact on Biblical Studies The explanation for this disciplinary blind spot lies partly in the reception of St Paul who became Augustine's inspiration for platonising denigration of the material world and Luther's for faith through scripture alone In the hands of more radical Reformers the Word was soon vehemently opposed to the Image an emphasis that was further fostered in the philologically inclined university faculties where Biblical Studies developed Yet Paul's piety is visual as well as verbal even aside from his mystical visions He envisages a contemplative focus on certain worldly sights as an integral part of believers' metamorphosis into Christ likeness This theme runs through Romans but finds its most concise expression in his correspondence with the Corinthians We all with unveiled face beholding in a mirror the glory of the Lord are being metamorphosed into the same image from glory to glory as from the Lord the Spirit 2 Cor 3 18 Richly ambiguous and allegorical as this is Paul shortly afterward defines an earthly site where this transformative sacred gaze occurs He insists that not mere death but the death of Jesus is made manifest in his suffering apostolic flesh Rightly perceived this becomes a holy spectacle for the sacred gaze working life in those who behold in faith but undoing those who see but do not perceive

Visual Piety: history & Theory of Popular Religious david morgan, 1998 *Mirrors of the Divine* Emily R. Cain, 2023 *Mirrors of the Divine* examines four early Christian authors Tertullian of Carthage Clement of Alexandria Gregory of Nyssa and Augustine of Hippo and analyzes their writings on vision and knowledge of God to show how they envisioned one's relationship to the world and how they imagined the unknown Emily R Cain explores how contradictory theories of sight shaped their cosmologies theologies subjectivities genders and discursive worlds and shows that early Christian arguments about the phenomenon of visual perception are deeply intertwined with broader debates about identity agency and epistemology

The Social Life of Prayer Andreas Bandak, 2021-03-09 This book brings the theme of prayer into anthropological discussion Across diverse significant ethnographic case studies five anthropologists attend to prayers and how they are performed and seen to intervene in the social world The studies include Pentecostals in Zambia Charismatic Christians in Ghana Protestants in Scotland Eastern Orthodox Christians in Romania and Catholics in Syria Across these ethnographic cases the book argues that focusing on the social life of prayer offers a significant way to engage with matters close to people Prayers are a way to map affect and the affective relationships people hold in what they are oriented towards and care about Taking its cue from Marcel Mauss the book invites us to go beyond the individual and see how prayers always point to a broader social landscape of obligation and affective investment Focusing on the social life of prayers the book posits accordingly entices a particular form of situated comparison of diverse Christian traditions that pushes the scholarly conversation on Christianity to consider central questions of agency responsibility and subjectivity Taking up prayer as the object of study this book offers novel anthropological perspectives on Christian life and practice The chapters in this book were originally published a special issue of Religion

The Mind's Eye Jeffrey F. Hamburger, Anne-Marie Bouché, 2006 The Mind's Eye focuses on the relationships among art theology exegesis and literature issues long central to the study of medieval art yet ripe for reconsideration Essays by leading scholars from many fields examine the illustration of theological commentaries the use of images to expound or disseminate doctrine the role of images within theological discourse the development of doctrine in response to images and the place of vision and the visual in theological thought At issue are the ways in which theologians responded to the images that we call art and in which images entered into dialogue with theological discourse In what ways could medieval art be construed as argumentative in structure as well as in function Are any of the modes of representation in medieval art analogous to those found in texts In what ways did images function as vehicles not merely vessels of meaning and signification To what extent can exegesis and other genres of theological discourse shed light on the form as well as the content and function of medieval images These are only some of the challenging questions posed by this unprecedented and interdisciplinary collection which provides a historical framework within which to reconsider the relationship between seeing and thinking perception and the imagination in the Middle Ages

Farago,Donna Pierce,2006 The essays collected here explore the Catholic instruments of religious devotion produced in New Mexico from around 1760 until the radical transformation of the tradition in the twentieth century The writers in this volume make three key arguments First they make a case for bringing new theoretical perspectives and research strategies to bear on the New Mexican materials and other colonial contexts Second they demonstrate that the New Mexican materials provide an excellent case study for rethinking many of the most fundamental questions in art historical and anthropological study Third the authors collectively argue that the New Mexican images had and still have importance to diverse audiences and makers **Kosmas** ,1996 **Book Review Index** ,2004 Every 3rd issue is a quarterly cumulation
