What Is Enlightenment? James Schmidt, 1996-09-08 This collection contains the first English translations of a group of important eighteenth century German essays that address the question What is Enlightenment The book also includes newly translated and newly written interpretive essays by leading historians and philosophers which examine the origins of eighteenth century debate on Enlightenment and explore its significance for the present In recent years critics from across the political and philosophical spectrum have condemned the Enlightenment for its complicity with any number of present day social and cultural maladies It has rarely been noticed however that at the end of the Enlightenment German thinkers had already begun a scrutiny of their age so wide ranging that there are few subsequent criticisms that had not been considered by the close of the eighteenth century Among the concerns these essays address are the importance of freedom of expression the relationship between faith and reason and the responsibility of the Enlightenment for revolutions Included are translations of works by such well known figures as Immanuel Kant Moses Mendelssohn Johann Gottlieb Fichte and Johann Georg Hamann as well as essays by thinkers whose work is virtually unknown to American readers These eighteenth century texts are set against interpretive essays by such major twentieth century figures as Max Horkheimer Jürgen Habermas and Michel Foucault

What is Enlightenment? Samuel Fleischacker, 2013 Have the courage to use your own understanding that is the motto of enlightenment Immanuel Kant The Enlightenment is one of the most important and contested periods in the history of philosophy The problems it addressed such as the proper extent of individual freedom and the challenging of tradition resonate as much today as when they were first debated Of all philosophers it is arguably Kant who took such questions most seriously addressing them above all in his celebrated short essay *An Answer to the Question What is Enlightenment* In this engaging and lucid book Samuel Fleischacker first explains and assesses Kant's philosophy of Enlightenment He then considers critics of Kant's views from Burke and Hegel to Horkheimer and Adorno and figures he regards as having extended Kant's notion of enlightenment such as Feuerbach Marx Habermas Foucault and Rawls Throughout he demonstrates how Kant holds two distinct theories of enlightenment On the one hand Kant proposes a minimal view where to be enlightened is simply to engage in critical public discussion allowing diversity of opinion to flourish On the other he argues that Kant elsewhere calls for a maximal view of enlightenment where for example an enlightened person cannot believe in a traditional religion With great skill Fleischacker shows how these two views are taken in a multitude of directions by both critics and advocates of Kant's philosophy Arguing that Kant's minimal enlightenment is a precondition for a healthy proliferation of cultures religious faiths and political movements *What is Enlightenment* is a fascinating introduction to a key aspect of Kant's thought and a compelling analysis of

philosophical thinking about the Enlightenment Including helpful chapter summaries and guides to further reading it is ideal for anyone studying Kant or the philosophy of the Enlightenment as well as those in related disciplines such as politics history and religious studies [An Answer to the Question](#) Immanuel Kant,2009 First published in 1784 Kant's immortal essay is now a part of the Penguin Great Ideas series This series is ideal for readers who want to explore and savor the Great Ideas that have shaped our world [Answer the question: What is Enlightenment?](#) , **What is Enlightenment? Before Tomorrow Catherine Malabou,2016-09-13 Is contemporary continental philosophy making a break with Kant The structures of knowledge taken for granted since Kant's Critique of Pure Reason are now being called into question the finitude of the subject the phenomenal given a priori synthesis Relinquish the transcendental such is the imperative of postcritical thinking in the 21st century Questions that we no longer thought it possible to ask now reemerge with renewed vigor can Kant really maintain the difference between a priori and innate Can he deduce rather than impose the categories or justify the necessity of nature Recent research into brain development aggravates these suspicions which measure transcendental idealism against the thesis of a biological origin for cognitive processes In her important new book Catherine

Malabou lays out Kant's response to his posterity. True to its subject, the book evolves as an epigenesis, the differentiated growth of the embryo, for as those who know how to read critical philosophy affirm, this is the very life of the transcendental and contains the promise of its transformation. *Foucault's Askesis* Edward F. McGushin, 2007-04-03

In his renowned courses at the Collège de France from 1982 to 1984, Michel Foucault devoted his lectures to meticulous readings and interpretations of the works of Plato, Epictetus, Seneca, and Marcus Aurelius, among others. In this, his aim was not, as Edward F. McGushin contends, to develop a new knowledge of the history of philosophy; rather, it was to let himself be transformed by the very activity of thinking. Thus, this work shows us Foucault in the last phase of his life, in the act of becoming a philosopher. Here we see how his encounter with ancient philosophy allowed him to experience the practice of philosophy as, to paraphrase Nietzsche, a way of becoming who one is: the work of self-formation that the Greeks called *askesis*. Through a detailed study of Foucault's last courses, McGushin demonstrates that this new way of practicing philosophical *askesis* evokes Foucault's ethical resistance to modern relations of power and knowledge. In order to understand Foucault's later project, then, it is necessary to see it within the context of his earlier work. If his earlier projects represented an attempt to bring to light the relations of power and knowledge that narrowed and limited freedom, then this last project represents his effort to take back that freedom by redefining it in terms of care of the self. Foucault always stressed that modern power functions by producing individual subjects. This book shows how his excavation of ancient philosophical practices gave him the tools to counter this function with a practice of self-formation, an *askesis*.

Dogen's Genjo Koan Eihei Dogen, 2011-08-01

Discover Dogen's classic Buddhist text in 3 engaging new translations with commentary by contemporary Zen masters like Zen Master Mind Beginner's Mind author Shunryu Suzuki. Dogen's *Treasury of the True Dharma Eye* is considered one of the highest manifestations of Buddhist thought ever produced. One of the greatest religious practitioners and philosophers of the East, Eihei Dogen Zenji (1200-1253) is today thought of as the founder of the Soto school of Zen. A deep thinker and writer, he was deeply involved in monastic methods and in integrating Zen realization into daily life. At times, *The Shobogenzo*, also called *Treasury of the True Dharma Eye*, was profoundly difficult and he worked on it over his entire life, revising, expanding, and producing a book that is today thought to be one of the highest manifestations of Buddhist thought ever produced. Dogen's *Genjo Koan* is the first chapter in that book, and for many followers, it might be thought to contain the gist of Dogen's work; it is one of the groundwork texts of Zen Buddhism, standing easily alongside *The Diamond Sutra*, *The Heart Sutra*, and a small handful of others. Our unique edition of Dogen's *Genjo Koan* contains 3 separate translations and several commentaries by a wide variety of Zen masters: Nishiyari Bokusan, Shohaku Okamura, Shunryu Suzuki, Kosho Uchiyama, Sojun Mel Weitsman, Kazuaki Tanahashi, and Dairyu Michael Wenger. All have contributed to our presentation of this remarkable work. There can be no doubt that understanding and integrating this text will have a profound effect on anyone's life and practice.
