What Marx Really Said Harry Burrows Acton, 1967 What Marx really said Harry B. Acton, 1967 **Cyber-Marx** Nick Dyer-Witheford, 1999 In this highly readable and thought provoking work Nick Dyer Witheford assesses the relevance of Marxism in our time and demonstrates how the information age far from transcending the historic conflict between capital and its laboring subjects constitutes the latest battleground in their encounter Dyer Witheford maps the dynamics of modern capitalism showing how capital depends for its operations not just on exploitation in the immediate workplace but on the continuous integration of a whole series of social sites and activities from public health and maternity to natural resource allocation and the geographical reorganization of labor power He also shows how these sites and activities may become focal points of subversion and insurgency as new means of communication vital for the smooth flow of capital also permit otherwise isolated and dispersed points of resistance to connect and combine with one another Cutting through the smokescreen of high tech propaganda Dyer Witheford predicts the advent of a reinvented autonomist Marxism that will rediscover the possibility of a collective communist transformation of society Refuting the utopian promises of the information revolution he discloses the real potentialities for a new social order in the form of a twenty first century communism based on the common sharing of wealth **Karl Marx's Theory of Revolution I** Hal Draper, 1977 Volume I of Hal Draper's definitive and masterful study of Marx's political thought which focuses on Marx's attitude toward democracy the state intellectuals as revolutionaries and much much more This series Karl Marx's Theory of Revolution represents an exhaustive and definitive treatment of Marx's political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper's series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader Marx on Emancipation and Socialist Goals Robert X. Ware, 2018-10-14 This book responds to the need for a retrieval and renewal of the work of Karl Marx through close philosophical analysis of his publications manuscripts and letters especially those relevant to politics morality and the future This philosophical study stands out because of its two principal features First it reviews and develops ideas about the future though often only briefly discussed by Marx and his commentators drawn from Marx's work Second it focuses on collective matters that are critical for Marx's ideas but rarely investigated and still problematic Part One introduces Marx with a discussion of emancipation and freedom in community It then discusses the importance of retrieval and the methodology for promoting it Part Two is about misunderstandings of Marx's ideas about productive development division of labour and organisations Part Three discusses

nations morality and democracy all of which Marx supported Part Four takes up Marx s significant but misunderstood ideas about the future and his relation to the anarchists How To Read Karl Marx Ernst Fischer, Franz Marek, 1996 A brief clear and faithful exposition of Marx s major premises with particular attention to historical context **Marxism and History** S. H. Rigby, 2024-06-04 This critically acclaimed book now in its second edition is firmly established as an essential guide to this recent historiographical debate Adopted as a set book by the Open University An indispensable guide to Marxist historiography for undergraduates Marx's Interpretation of History Melvin Miller Rader, 1979 Attempts to find an underlying consistency in Marx s complex vision of history without glossing over apparent contradiction in the writings of Marx and in those of his interpreters *Comprehending Karl Marx* Frank Vorhies, 1990-12-31 The Social Democrat, 1901 *What Saint Paul Really Said* Nicholas Thomas Wright, 1997 *World Revolution* Nesta Helen Webster, 1921 **African Review**, 1896 **The New Generation**, 1924 The Value Doctrine of Karl Marx Albert G. A.
