*Nudging Public Policy* Rosemarie Fike, Stefanie Haeffele, Arielle John, 2021-11-17 This book asks several critical questions relevant to those interested in public policy What is a nudge What are the ethical implications of and justifications for nudges Are we able to have nudges without affecting one's freedom to choose In what institutional context are nudges likely to work well and in what context are they likely to fail The text explores several real world instances of government attempts at successful choice architecture across a wide range of policy topics internet privacy laws environmental policy education policy the sharing economy and creating a national culture This approach also highlights the spontaneous and evolutionary nature of social institutions like culture and trust Attempts from policymakers to generate these social institutions where they did not exist previously are unlikely to succeed unless they are aligned with the unique characteristics of the society in question This raises the question of whether the seemingly successful policy interventions were even necessary A few of the chapters in this book directly examine these issues through case studies of both Latin America and Singapore Each chapter in this volume explores the ways in which individuals in society respond to attempts by policymakers to nudge them towards a specific outcome Some chapters explore the theoretical arguments in favor of utilizing this behavioral policy approach Others explore the feasibility and potential limitations of this approach to public policy Several of the chapters apply market process theory to understand a particular case study where nudge policies have been put into practice The chapters authored by an interdisciplinary group of policy scholars include discussions of internet privacy laws the sharing economy education policy

environmental policy as well as social issues such as trust and culture

The Binding Tie Kristina Göransson,2009-01-01 Since gaining independence in 1965 Singapore has become the most trade intensive economy in the world and the richest country in Southeast Asia This transformation has been accompanied by the emergence of a deep generational divide More complex than simple disparities of education or changes in income and consumption patterns this growing gulf encompasses language religion and social memory The Binding Tie explores how expectations and obligations between generations are being challenged reworked and reaffirmed in the face of far reaching societal change The family remains a pivotal feature of Singaporean society and the primary unit of support The author focuses on the middle generation caught between elderly parents who grew up speaking dialect and their own children who speak English and Mandarin In analyzing the forces that bind these generations together she deploys the idea of an intergenerational contract which serves as a metaphor for customary obligations and expectations She convincingly examines the many different levels at which the contract operates within Singaporean families and offers striking examples of the meaningful ways in which intergenerational support and transactions are performed resisted and renegotiated Her rich material drawn from ethnographic fieldwork among middle class Chinese provides insights into the complex interplay of fragmenting and integrating forces The Binding Tie makes a critical contribution to the study of intergenerational relations in modern rapidly changing societies and conveys a vivid and nuanced picture of the challenges Singaporean families face in today s hypermodern world It will be of interest to researchers and students in a range of fields including anthropology sociology Asian studies demography development studies and family studies

**Yu Yen Tzu Erh Chi: a Progressive Course of Colloquial Chinese as Spoken in the Captical and the Metropolitan Department. 2d Ed** Thomas Francis Wade,1886 Report of the Committee Appointed by the Lords Commissioners of His Majesty's Treasury to Consider the Organisation of Oriental Studies in London Great Britain. Treasury. Committee on the organisation of oriental studies in London,1909 **Parliamentary Papers** Great Britain. Parliament. House of Commons,1909 **Sessional Papers** Great Britain. Parliament. House of Commons,1909 Singapore Stories Ernest Koh,2010 The history of Singapore has been widely conflated with the history of its economic success From its heyday as a nexus of trade during the imperial era to the modern city state that boasts high living standards for most of its citizens the history of Singapore is commonly viewed through the lens of the ruling elite Published in two volumes in 1998 and 2000 Lee Kuan Yew s memoirs The Singapore Story epitomizes this top down definitive narrative of the nation s past The history of post war Singapore has largely been reduced to a series of decisions made by the nation s leaders Few existing studies explore the role and experiences of the ordinary

person in Singapore's post-war history. There are none that do this through ethnography, oral history, and collective biography. In a critical study that has no parallel among existing works on Singapore history, this book dispenses with the homogenous historical experience that is commonly presumed in the writing of Singapore's national past after 1945 and explores how the enforcement of a uniform language policy by the Singapore government for cultural and economic purposes has created underappreciated social and economic divides among the Chinese of Singapore, both between and within families. It also demonstrates how mapping distinct economic, linguistic, and cultural cleavages within Singaporean Chinese society can add new and critical dimensions to understanding the nation's past and present. Chief among these, the author argues, are the processes behind the creation and entrenchment of class structures in the city-state, such as the increasing value of English as a form of opportunity-generating capital.

*The State, Development and Identity in Multi-Ethnic Societies* Nicholas Tarling, Terence Gomez, 2008-03-03. This book examines ethnic communities, identity, economy, society, and state, and the links between them in a range of countries across Asia, challenging the widely held belief that an authoritarian political system is necessary to ensure communal co-existence in developing countries where ethnic minorities have a considerable economic presence.
