addition to adding Jay Dratler one of America s leading authorities on licensing intellectual property and Barbara Wrigley a  
practitioner with many years experience in the field to the list of co authors the Second Edition of Licensing Intellectual  
Property in the Information Age formerly Licensing Intellectual Property in the Digital Age has been largely redone Keeping  
the same basic structure each chapter has been updated with the most current developments in licensing law Chapter 2 now  
works as a much more efficient introduction to intellectual property Additionally with the inclusion of the Uniform Electronic  
Transactions Act in Chapter 8 and an entirely new chapter on Biotechnology the book is now the most up to date and  
authoritative textbook available The book emphasizes application in actual situations with chapters designed to simulate the  
work flow a lawyer is likely to face in the negotiation formation and enforcement of an intellectual property license The  
Problem Supplement is a unique addition to this book see the link below It contains two types of exercises The first is a  
continuous series of problems based on factual scenarios involving a fictitious sports car manufacturer Contair Corp These  
exercises are called Problems They are numbered consecutively and keyed to the chapter of the casebook for which they  
should be assigned A second set of exercises is entirely separate and does not involve the ongoing Contair hypothetical These  
are called Exercises and are keyed to the chapter of the casebook to which they are relevant Additional exercises such as  
those involving the distinctiveness of trademarks are included in Chapter 2 of the Casebook Overview of Intellectual Property  
Law but are not included in the supplement because they are review exercises and are unlikely to change To access the On
