dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present. Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration, cultural assimilation, expansion and foreign contact form the basis of the modern culture of China.

Beirut, I Love You Zena el Khalil, 2012-10-16. Zena el Khalil a young Beirut based female artist, writer and activist who had an unconventional but worldly upbringing growing up in Lagos, Nigeria and attending art school in New York, returns after 9/11 to her familial home of Beirut and its mountains, beaches, food, music and drugs. *Beirut I Love You* spanning from 1994 to the present day brings Beirut to life in all its glory and contradictions and is filled with personal anecdotes of Zena's life there, a place where in spite of the pervasive desire for hope and the resilience of its people still bears deep scars from the Lebanese Civil War and the Israeli invasion of 2006, a place where plastic surgery and AK 47s live side by side and nightclubs are situated on rooftops in order to avoid car bombs. Yet Zena and her friends, in particular her fellow rebel Maya, refuse to accept the extreme poles of Beirut: the militias and gender restrictions on one side, hedonism and materialism on the other. And although Zena experiences tragedy and loss, her story is a testament to the power of love and friendship and the beauty of her city and its inhabitants. Written with an honest, profound simplicity, Zena is intoxicated by the country's contradictions. Lebanon was and always will be schizophrenic and attempts to come to terms with her role among her friends, family and city.

Some historians contend that the Allies achieved victory through brute force and material superiority. But as Peter Mansoor argues, all of the material produced by US industry was useless without trained soldiers to operate it, a coherent doctrine for its use, and leaders who could effectively command the formations into which it was organized.
