Two Laughters

Judith Kay Nelson

Two Laughters:

Second Nature Josephine Gray, Lisa Trahair, 2022-11-08 This critical intervention in the study of the comic investigates how the comic act is also an expressive and performative act that precedes philosophical conceptualisation The book puts Bergson philosophy and the body at the centre of its investigation to explore different aspects of the field from the history and philosophy of comedy to film and psychoanalysis The volume develops a theoretical and practice based framework that will be a valuable resource for students scholars and practitioners alike in the fields of philosophy literary studies theatre and performance studies and comedy studies List of Contributors Caterina Angela Agus Fred Dalmaso Lisabeth During Xavier Escribano Giovanni Fusetti Davide Giovanzana Josephine Gray Mar a J Ortega M ez Meg Mumford Jean Michel Rabat Carolyn Shapiro Lisa Trahair

The Nature Of Laughter Gregory, J C, 2013-11-05 First Published in 1999 This is Volume X of thirty eight in the General Psychology series Written in 1924 this book looks at the aspects such as wit and the ludicrous varieties causes function and aesthetics of laughter and its place in civilisation

Laughter and Narrative in the Later Middle Ages Sebastian Coxon, 2017-07-05 In contrast to the vernacular literary traditions of France Italy and England comic tales in verse flourished in late medieval Germany providing bawdy entertainment for larger audiences of public recitals as well as for smaller numbers of individual readers In a sustained close analysis Sebastian Coxon explores both the narrative design and fundamental thematic preoccupations of these short texts A distinctively performative tradition of pre modern narrative literature emerges which invited its recipients to think learn and above all to laugh in a number of different ways

What Made Freud Laugh Judith Kay Nelson, 2012-08-21 In her characteristically engaging style Nelson explores a topic that has fascinated and frustrated scholars for centuries Initially drawn to the meaning of laughter through her decades of work studying crying from an attachment perspective Nelson argues that laughter is based in the attachment system which explains much about its confusing and apparently contradictory qualities Laughter may represent connection or detachment It can invite closeness or be a barrier to it Some laughter helps us cope with stress other laughter may serve as a defense and represent resistance to growth and change Nelson resolves these paradoxes and complexities by linking attachment based laughter with the exploratory play system in infancy and the social affiliative system the conflict appeasement sexual mating and fear wariness systems of later life An attachment perspective also helps to explain the source of different patterns and uses of laughter suggests how and why they may vary according to attachment style and explain the multiple meanings of laughter in the context of the therapeutic relationship As she discovers attachment has much to teach us about laughter and laughter has much to teach us about attachment This lively book sheds light on the ways in which we connect grow and transform and how through shared humor play and delight we have fun doing so
