**The Fear Virus** Ed Young, 2020-04-07 *The Virus of Fear* Filipe R. Campante, Emilio Depetris-Chauvin, Ruben Durante, 2020 We study how fear can affect the behavior of voters and politicians by looking at the Ebola scare that hit the U S a month before the 2014 midterm elections Exploiting the timing and location of the four cases diagnosed in the U S we show that heightened concern about Ebola as measured by online activity led to a lower vote share for the Democrats in congressional and gubernatorial elections as well as lower turnout despite no evidence of a general anti incumbent effect including on President Obama's approval ratings We then show that politicians responded to the Ebola scare by mentioning the disease in connection with immigration and terrorism in newsletters and campaign ads This response came only from Republicans especially those facing competitive races suggesting a strategic use of the issue in conjunction with topics perceived as favorable to them Survey evidence suggests that voters responded with increasingly conservative attitudes on immigration but not on other ideologically charged issues Taken together our findings indicate that emotional reactions associated with fear can have a strong electoral impact that politicians perceive and act strategically in response to this and that the process is mediated by issues that can be plausibly associated with the specific fear triggering factor

*The Mind of Consciousness* Ray Morose, 2011 *The Mind of Consciousness* *The Mind of Consciousness* is a book unfolding a new way with new process methods to evaluate your existence It is an experiential work written in textbook format that analytically delineates how and why consciousness and mind interface and function exposing the inter connective dependency of non biological consciousness and the biologically created mind Knowing how that interconnectivity interrelates provides avenues of exploration that reveal the fundamental nature of existence unveiling an innate purpose and direction embedded within consciousness This book works through all the major questions of existence using reproducible and experiential logic allowing everyone to experience the results of that exploration Throughout your life you have two realities at war with one another the primary I am reality formed from non biological consciousness and the secondary I am this or that reality formed by the biological mind You may not be aware of or even appreciate the internal conflict these two inter connective and inter dependent realities create However you experience the resultant turmoil and confusion their

subliminal battles establish by not having an experiential appreciation of how those realities are formed function and potentially control your life The text delineates causation for those ongoing internal battles and outlines processes to help overcome the sense of frustration isolation and discord they generate This experiential method of examination creates empirical processes that afford you the opportunity to make an informed choice rather than a conditioned reaction providing a more secure productive directional and enjoyable life This book takes you into the core of your being turning it inside out exposing who and what you are by revealing a self created shadow world controlling your life without you being aware that control exists
