What Next After School:

So What's Next! G. J. Griffiths, 2014-05-03 Molly Pearson is a young Biology teacher with two passions in her life a strong commitment to protecting wildlife and a desire to encourage the children in her classes to feel the same enthusiasm for Nature When her class decide they would like to restore the school s neglected and vandalised nature corner her hopes are raised and challenged at the same time The hurdles that she meets along the way will include bullied and bullying pupils as well as the expected ones of finance and willing manpower But leaping those fences does not prepare the ambitious Molly for a dramatic fire and the confusion of a new passion in her life in the form of Oliver Shrimpton Will he become that significant someone or is he just another obstacle for her to overcome G J Griffiths latest novel in the So What series of stories is still based firmly around the events that take place within the walls of Birch Green High School It follows some of the trials and tribulations of Molly Pearson a previous novice teacher who was mentored by Robert Jeffrey the main character from the first book Molly s efforts to spread the important message about protecting wildlife and the natural environment reflect something that has always been important to the author For that reason some of the proceeds from the sales of this book will be donated to wildlife charities Although this book is an exciting novel telling the story of schoolchildren who want to protect garden wildlife it also contains several chapters towards the end with plenty of helpful information for lovers of nature and who want to take a fresh look at making their garden a wildlife garden

The After-school Lives of Children Deborah Belle, 1999-03-01 Based on research about after school experiences and dilemmas conducted over a four year period with employed parents and their children this book draws on the stories these parents and children told often using their actual words to emphasize the wide variety of children s after school arrangements children s movement over time in and out of different arrangements and the importance to children of multiple facets of their after school arrangements not simply the presence or absence of an adult caretaker The book also emphasizes that children are not randomly assigned to after school arrangements Rather parents and children struggle to reach optimal solutions to what are often difficult child care dilemmas To understand these dilemmas and the diverse strategies that families adopt one must attend to the individual situations of children as family members understand them This book was written to contribute to the development of new family and work policies and practices by illuminating the difficulties families face and their consequences for children Written for psychologists sociologists and other social scientists who study families maternal employment child care or child development it will also be useful for parents educators community leaders and public policymakers concerned about the well being of children whose parents are employed
