Womens Issues:

Research on Women's Issues in Transportation, Report of a Conference ,2006 **How Women Represent Women**
Tracy L. Osborn,2012-03-22 This title argues that political parties fundamentally structure the ways in which women legislators represent women s interests Using original election sponsorship and roll call data across the US state chambers Osborn shows how parties shape the policy alternatives women offer *Gender and Women's Leadership* Karen O'Connor,2010-08-18 These volumes provide an authoritative reference resource on leadership issues specific to women and gender with a focus on positive aspects and opportunities for leadership in various domains New Labour's Women MPs
Sarah Childs,2004-07-31 It was not long after the election of a record number of women to the House of Commons in 1997 that the backlash began The criticism was all encompassing they wore the wrong clothes they voted the wrong way and they were concerned with the wrong issues Above all they were accused of failing to make difference to have failed women and were dismissed by some as Blair s Babes Drawing on in depth interviews with more than half of the new Labour women MPs Sarah Childs reveals how these women actually experienced being MPs and explores whether they acted for and like women in their constituencies in parliament and in government She presents important insights into theories of women s political representation showing that the relationship between women s descriptive and substantive representation is complicated that party and gender identities are crucial that women s differences must be acknowledged and that it might not always be possible for women representatives to act for women even if they want to Including a key section on women s selection for parliament whether women MPs act as role models why it is important that women should be present in politics as well as exploring in depth the subject of women s substantive representation *New Labour s Women MPs* is essential reading for all those interested in women and politics legislative studies political behaviour and representation **Women's Issues** Laura Stempel Mumford,1989 A Short History of Women's Rights from the Days of Augustus to the Present Time Eugene Arthur Hecker,1910 **A History of Women's Education in the United States** Thomas Woody,1929 Toward Equal Rights for Men and Women Ethel M. Smith,1929 The author of this book which includes a brief introduction by Sophonisba Breckenridge maintains that an Equal Rights Amendment such as the one then being proposed by Alice Paul and the Woman s Party would lead to chaos and confusion She argues that absolute equality with men would strip away certain forms of protective legislation from which certain groups of women benefit Women of Today Mrs. Ida Clyde Gallagher Clarke,1924
Women of the Pacific ,1928 The No-nonsense Guide to Women's Rights Nikki Van der Gaag,2004 How much how much has life really changed for women over the last decade Has the women s movement affected women all over the world Has it changed women s relationships with men Nikki van der Gaag answers these questions with hard sometimes disturbing evidence Many women have made huge leaps forward in legal rights political representation employment education and health The rhetoric of gender equality slips easily off the tongues of politicians But beneath the surface the statistics are

shocking And men have changed very little Vivid testimonies from around the world explain why especially in this post feminist age women s rights are still very much an issue for men and women alike **A Woman's Issue** Dorothy E. McBride,1982 **Pursuing the American Dream** Calvin C. Jillson,2004 Marked by continuity renewal and expansion the image of the Dream Jillson contends has been remarkably constant since well before the American Revolution an image of a nation offering a better chance for prosperity than any other His book reveals how that Dream has motivated our nation s leaders and common citizens to move sometimes grudgingly toward a more open diverse and genuinely competitive society *The Presidency of Richard Nixon* Melvin Small,1999 A lively anecdotal account features every facet of Nixon s controversial administration just in time for the 25th anniversary of his history making resignation from the presidency 23 photos **Bulletin** International Council of Women,1930 **America in the Seventies** Beth L. Bailey,2004 The seventies witnessed economic decline in America coupled with a series of foreign policy failures events that created an air of unease and uncertainty This volume examines the ways in which Americans responded to a changing world and sought to redefine themselves **Massachusetts Register** , **The Saturday Review of Politics, Literature, Science and Art** ,1929 **The Japan Year Book** Katsuji Inahara,1935 Includes list of clubs societies associations etc *The Human Rights Encyclopedia: Issues and individuals* James R. Lewis,2001 Provides a country by country analysis of the approach to human rights as well as examination of such topics as torture slavery asylum genocide freedom of the press and the right to education
