Eklou, Mr. Tidiane Kinda, Vatsal Nahata, Umang Rawat, Ara Stepanyan, 2023-09-15 The ASEAN 5 region which comprises Indonesia Malaysia the Philippines Singapore and Thailand has benefited substantially from its integration to the world economy particularly through trade Rising risks of geoeconomic fragmentation could reverse some gains reaped from globalization over the past decades In this context advancing regional integration among ASEAN 5 members has the potential to enhance the region's resilience against external headwinds This paper shows that despite sizeable progress particularly in regional trade integration there is room to advance financial integration which also lags trade integration in ASEAN 5 Empirical findings from the paper illustrate that a higher degree of regional financial integration could generate sizeable output gains for the region Using firm level data the paper highlights that digitalization an area where the region is thriving can support regional integration by helping firms better integrate into global value chains with the benefits being stronger for small and medium sized enterprises The results also suggest that digitalization can help firms move up the value chain through the production of more sophisticated products often coined as higher export sophistication

The History of Integration of the Armed Forces Morris J. MacGregor, 2022-11-13 In *The History of Integration of the Armed Forces* Morris J. MacGregor meticulously chronicles the transformative journey of racial integration within the United States military from World War II through the post Vietnam era. Employing a narrative that seamlessly interweaves personal anecdotes, government policies, and socio-political contexts, MacGregor's exploration is both scholarly and engaging. His literary style balances rigorous historical analysis with accessible prose, allowing readers to grasp the complexities of military integration as a reflection of broader societal changes. The book situates itself within the context of civil rights movements, illustrating the military's role as both a catalyst for and a responder to growing demands for equality and justice within American society. Morris J. MacGregor's extensive expertise in military history stems from a long career as a historian and educator, as well as his firsthand experiences as a veteran. His profound understanding of the intricate dynamics of race relations within military structures not only shapes the narrative but also personalizes the struggles faced by countless service members. MacGregor's dedication to accurately depicting this pivotal period showcases his commitment to illuminating often overlooked chapters of American history. I highly recommend *The History of Integration of the Armed Forces* to historians, students, and anyone interested in the intersection of military history and civil rights. MacGregor's insightful analysis and compelling storytelling provide readers with critical perspectives on how integration has altered the fabric of the U.S. armed forces and reflects shifting societal attitudes toward race and equality.

The Social Integration of the Philippines, 1924 *Integration of the Armed Forces, 1940-1965* Morris J. MacGregor, 2020-06-18 In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent, the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy.

Casad, 1981. Distinguished legal scholar Robert C.
