The Last Train:

The Last Train to Dachau Robert B. Niklewicz, 2008-10-01 The Last Train to Dachau is based on the real life plight of the Miller family during World War II. With the invasion of Poland by the Germans the story follows the family and their experiences of the occupation, hunger, cold, and the terror in their home town. This family of five was Polish Catholic but had a German-like surname. This situation placed them between the Germans who wanted them to sign a loyalty declaration which they refused, and the community which assumed that they had. The story tells of the horrors and obstacles that they faced and had to overcome to stay together and live. Emilia, Alicia, and Leszek are children that spend most of their youth surviving both the physical and emotional stresses of war. Wladyslawa the mother is a worker in a Red Cross shelter during the day but often had to travel at night to find black market food for her family. Wiktor the father was conscripted to a labor train after the surrender of Warsaw. He worked under threat of great harm to his family while forced to travel and repair damaged trains and tracks across Poland and Germany. His travels and experiences on a recovery and repair crew gave him an avenue to stay alive while still resisting his oppressors. The intensity of the story increases as the Millers face the brutality of their captors who desperately try to accomplish their final solution for all Poles in the closing days of the war. The reader will find it hard to put the book down as the Millers face their fate.

The Last Train from Hiroshima Charles Pellegrino, 2010-01-19 Drawing on the voices of atomic bomb survivors and the new science of forensic archaeology, Charles Pellegrino describes the events and aftermath of two days in August when nuclear devices detonated over Japan, changing life on Earth forever. *Last Train from Hiroshima* offers readers a stunning, you-are-there time capsule gracefully wrapped in elegant prose. Charles Pellegrino's scientific authority and close relationship with the A-bomb survivors make his account the most gripping and authoritative ever written. At the narrative's core are eyewitness accounts of those who experienced the atomic explosions firsthand: the Japanese civilians on the ground and the American flyers in the air. Thirty people are known to have fled Hiroshima for Nagasaki where they arrived just in time to survive the second bomb. One of them, Tsutomu Yamaguchi, is the only person who experienced the full effects of the cataclysm at ground zero both times. The second time the blast effects were diverted around the stairwell in which Yamaguchi had been standing, placing him and a few others in a shock cocoon that offered protection while the entire building disappeared around them. Pellegrino weaves spellbinding stories together within an illustrated narrative that challenges the official report, showing exactly what happened in Hiroshima and Nagasaki and why.

The Last Train North Clifton L. Taulbert, 1995 Picking up where his memoir *When We Were Colored* left off, Taulbert recounts his 1963 migration from the small segregated Mississippi town of his birth to the big integrated city of St. Louis where opportunity was everywhere. The realities of the North sometimes fall short of his fantasies, but he never loses sight of his dreams.
