major role in the development of modernity in the second half of the twentieth century Political conflict and war in Europe  
led many leading architects to move to America where they found a fertile ground for developing new languages in an  
optimum ideological framework which was open and cosmopolitan Today architecture in both North and South America with  
its complexity the local flavour of each country or state and the reinterpretation of national tradition is a varied and forceful  
source of inspiration for architects all over the world The present volume offers a careful selection of new housing projects by  
emerging architects in different countries of America which provide an interesting panorama of languages and techniques  
applied to the rich and dynamic field of housing design      **American Country Houses of Today ...** , 1917      *American  
House Now* Susan Doubilet, Daralice Donkervoet Boles, 2002 The houses in this volume share a common point of origin all  
draw upon the established principles of American Modernism At the same time they differ markedly from one another and in  
so doing demonstrate the diversity implicit in that style At one end of the spectrum are the cerebral unviolated sculptural  
forms of Richard Meier s Grotta House at the other end is the rugged expressionism of Eric Owen Moss s Lawson Western  
House The collection represents both established American architects such as Meier and John Lautner such internationally  
known contemporaries as Stephen Holt Mark Mack and Arquitectonica and newcomers Carlos Zapata and UKZ BOOK

Boykin,Susan M. Hunter,2018-08-01 Southern Homes and Plan Books showcases the architectural legacy and design philosophy of Leila Ross Wilburn 1885 1967 a legacy that includes hundreds of houses in a variety of popular house styles from bungalows to ranch houses built using

Wilburn's plan books during the first six decades of the twentieth century Wilburn opened her own firm in Atlanta in 1908 and practiced until her death in 1967 She published nine plan books that offered mail order house designs to contractors builders and prospective homeowners and allowed them the ease of choosing a preconceived design and construction plan Sarah J Boykin and Susan M Hunter provide a survey of the southern homes built from Wilburn's plan books examining Wilburn's architectural legacy and her achievements as a plan book architect The book provides beautiful photographs of houses built from her plans along with illustrations from the plan books themselves and other related documents from the time Readers can thus see how her designs were realized as individual houses and also how they influenced the development of some of the Atlanta area's beloved historical neighborhoods most notably Druid Hills Morningside Virginia Highland and Candler Park as well as the McDonough Adams Kings Highway MAK Historic District in Decatur Today Wilburn's houses are enjoyed as appealing historic homes and represent some of the richest examples of southern vernacular architecture to emerge from the plan book tradition
