this one will end when technology is able to provide a clear answer Heywood believes we are now at that point With the advent of modern genetics the refinement of the fossil record and computer technology today we can clearly point the way toward The Origin of the Species This book traces the logical progression from the geological record to the new Tree of Life model It comments on the first nine chapters of the Bible showing the undeniable match between Scripture and the fossil record and between Scripture and the expanding universe You are invited to evaluate a new creation model for the 21st century In doing so you have the opportunity to join hands with the pioneer greats of science including Joule Faraday Lord Kelvin Sir Isaac Newton and many others You will see science in a whole new light as it leads mankind into the new millennium
