This Is Not A Peace Pipe:

This is Not a Peace Pipe Dale Antony Turner, 2006-01-01 Explores indigenous intellectual culture and its relationship to and within the dominant Euro American culture This book also contends that indigenous intellectuals need to engage the legal and political discourses of the state respecting both indigenous philosophies and Western European intellectual traditions

[This Is Not a Peace Pipe](#) Dale Turner, 2006-02-06 How can indigenous people best assert their legal and political distinctiveness In This is Not a Peace Pipe Dale Turner explores indigenous intellectual culture and its relationship to and within the dominant Euro American culture He contends that indigenous intellectuals need to engage the legal and political discourses of the state respecting both indigenous philosophies and Western European intellectual traditions According to Turner the intellectual conversation about the meaning of indigenous rights sovereignty and nationhood must begin by recognizing firstly that the discourses of the state have evolved with very little if any participation from indigenous peoples and secondly that there are unique ways of understanding the world embedded in indigenous communities Further amongst indigenous peoples a division of intellectual labour must be invoked between philosophers who possess and practice indigenous forms of knowledge and those who have been educated in the universities and colleges of the Euro American world This latter group Turner argues must assert protect and defend the integrity of indigenous rights sovereignty and nationhood as they are the ones able to speak the language of the dominant culture while being guided by their indigenous philosophies This is Not a Peace Pipe is a work that will be controversial amongst indigenous scholars by upsetting the assumptions many have about how best to fight for recognition of their legal and political distinctiveness It will be debated for years to come

Socially Undocumented Amy Reed-Sandoval, 2020 What does it really mean to be undocumented particularly in the contemporary United States Political philosophers immigration policy makers and others have tended to define the term undocumented migrant legalistically that is in terms of lacking legal authorization to live and work in one's current country of residence In Socially Undocumented Reed Sandoval challenges this legalistic understanding by arguing that being socially undocumented is to possess a real visible and embodied social identity that does not always track one's legal status She further argues that achieving immigration justice in the U S and elsewhere requires a philosophical understanding of the racialized class based and gendered components of socially undocumented identity and oppression Socially Undocumented offers a new vision of immigration justice by integrating a descriptive and phenomenological account of socially undocumented identity with a normative and political account of how the oppression with which it is associated ought to be dealt with as a matter of social justice It also addresses concrete ethical challenges such as the question of whether open borders are morally required the militarization of the Mexico U S border the perilous journey that many migrants undertake to get to the United States the difficult experiences of the women who cross U S borders seeking prenatal care while pregnant and more

Disjunctures Yann Allard-Tremblay, Assistant Professor

Department of Political Science McGill University Senior Research Associate African Centre for Epistemology and Philosophy of Science Yann Allard-Tremblay, 2025-10-10 Disjunctures demonstrates the transformative potential of Indigenous political traditions in settler states that seek reconciliation Though there exist irreconcilable differences between Indigenous and dominant Euro modern political structures and identities Yann Allard Tremblay argues that these disjunctures highlight a way forward In contrast to Euro modern politics Indigenous ways of thinking and acting politically emphasize harmony not just among humans but within the broader ecological context Reconciliation thus requires a deep transformation of political theory and conduct to recenter decolonial Indigenous political traditions
