**This Migrant Earth** Tomás Rivera, Rolando Hinojosa, 1987 This Migrant Earth is Rolando Hinojosa's re-casting into English of the novel that is the basis of the modern Chicano literary movement. Tomás Rivera's *Y no se lo trago la tierra* Rivera's memorable book was awarded the first national award for Chicano literature in 1970 and has since become the standard text in U.S. Hispanic literature courses throughout the country. Three years after Rivera's death, his friend and fellow novelist Rolando Hinojosa captured the spirit and poetry of Rivera's original for an English language audience. *This Migrant Earth* Tomás Rivera, 1985 *Migrant Earth* Ramon Ledesma, 2024-09-10 Migrant Earth is a passionate work told by Senor Ledesma. He writes of his family's journeys as they navigate the sun-scorched fields in four Northwest states. Migrant Earth is historical and hopeful, sometimes sad and often joyful. [The Chicano Movement](#) Sara E. Martínez, 2017-01-23 This book furthers appreciation of key pieces in American literature from the Chicano Movement by placing them in the context of history, society, and culture. Part of Greenwood's new Historical Exploration of Literature series, this book provides teachers with ready reference works that align language arts and social studies standards for secondary classes on the topic of the Chicano Movement. It will serve to help students better understand key pieces in American literature from the Chicano Movement by putting them in the context of history, society, and culture through historical context essays, literary analysis, chronologies, documents, and suggestions for discussion and further research. The book includes works such as *Bless Me Ultima* by Rudolfo Anaya (1972), *This Migrant Earth* by Tomás Rivera (1970), *The Revolt of the Cockroach People* by Oscar Z. Acosta (1973), and *The House on Mango Street* by Sandra Cisneros (1984). The book also supplies additional information in the form of chronologies, historical context essays, and primary document excerpts that support understanding of the historical period, as well as materials such as activities, lesson plans, discussion questions, topics for further research, and suggested readings.

**The Missionary Review of the World**, 1926 **Seven Essays on Tomás Rivera**, 1994 **Bostonia**, 1916 **Red Earth** Bonnie Lynn-Sherow, 2004 Before the great Land Rush of 1889, Oklahoma territory was an island of wildness, home to one of the last tracts of biologically diverse prairie. In the space of a quarter century, the territory had given over to fenced farmsteads, with even the racial diversity of its recent past simplified. In this book, Bonnie Lynn Sherow describes how a thriving ecology was reduced by market agriculture. Examining three central Oklahoma counties with distinct populations—Kiowas, white settlers, and black settlers—she analyzes the effects of racism, economics, and politics on prairie landscapes while addressing the broader issues of settlement and agriculture on the environment. Drawing on a host of sources—oral histories, letters, and journals, and agricultural and census records—Lynn Sherow examines Oklahoma history from the Land Rush to statehood to show how each community viewed its land as a resource, what its members planted, how they cooperated, and whether they succeeded. Anglo settlers claimed the choice parcels, introduced mechanized farming, and planted corn and wheat; blacks tended to grow cotton on lands unsuited for its cultivation, and Kiowas strove to become pastoralists. Lynn

Sherow shows that as each group vied for control over its environment its members imposed their own cultural views on the uses of nature and on the legitimacy of the other in their own relationship with the red earth Lynn Sherow further reveals that racism both institutionalized and personal was a significant factor in determining how where by whom and to what ends land was used in Oklahoma She particularly assesses the impact of USDA policy on land use and by extension environmental and social change As agricultural agents railroads and local banks encouraged white settlers to plant row crops and convert to market farms they also discriminated against Indians and blacks And as white settlers prospered they in turn altered the relationship of Indians and African Americans with the land The transformation of Oklahoma Territory was a protracted power struggle with one people s relationship to the land rising to prominence while banishing the others from history Red Earth provides a perceptive look at how Oklahoma quickly became homogenized mirroring events throughout the West to show how culture itself can be a major agent of ecological change
