*Thomas Ruff* Thomas Ruff,Per Boym,2001 **Thomas Ruff** Thomas Ruff,Castello di Rivoli (Museum : Rivoli, Italy),2009 Thomas Ruff is one of the best known and most influential German photographers working today This monograph charts Ruff s entire career including early photographs and works from all his major projects *Digital Image Systems* Claus Gunti,2020-01-07 In *Digital Image Systems* Claus Gunti examines the antagonizing reactions to digital technologies in photography While Thomas Ruff Andreas Gursky and J rg Sasse have gradually adopted digital imaging tools in the early 1990s other photographers from the D sseldorf School have remained faithful to film based technologies By evaluating the aesthetic and discursive preconditions of this situation and by extensively analyzing the digital work of these three photographers this book shows that the digital turn in photography was anticipated by the conceptualization of images within

systems and thus offers new perspectives for understanding the digital revolution *Thomas Ruff* Thomas Ruff, *Herzog & de Meuron* Herzog & de Meuron, 2005 More than any of their contemporaries Swiss architects Jacques Herzog and Pierre de Meuron are challenging the boundaries between architecture and art *Natural History* explores that challenge examining how the work of this formidable pair has drawn upon the art of both past and present and brought architecture into dialogue with the art of our time Echoing an encyclopedia this publication reflects the natural history museum structure of the exhibition which it accompanies organized by the Canadian Centre for Architecture Models and projects by Herzog de Meuron as well as by other artists are structured around six thematic portfolios that suggest an evolutionary history of the architects work Appropriation Reconstruction Transformation Alienation Stacking Compression Imprints Moulds Interlocking Spaces and Beauty Atmosphere Each section is introduced with a statement from Herzog and more than 20 artists scholars and architects have contributed essays including Carrie Asman Georges Didi Huberman Kurt W Forster Boris Groys Ulrike Meyer Stump Peggy Phelan Thomas Ruff Rebecca Schneider Adolf Max Vogt and Jeff Wall Thomas Ruff Thomas Ruff, 2020-09-15 Examine the photographic series of celebrated contemporary photographer Thomas Ruff Thomas Ruff is one of the most important contemporary German photographers living today Studying under Bernd and Hilla Becher Ruff experimented with large format printing This comprehensive book focuses on his photographic series from the past twenty years These series are based on found photographs from a variety of sources The source materials range from early nineteenth century photography to machinemade photographs of distant planets from post war press photos to propaganda images from the People s Republic of China and from Internet pornography to computer generated photograms In each series Ruff explores the historical and technical conditions of photography by examining these highly varied pictorial worlds At the same time he takes into consideration the afterlife of the images in archives databases and on the Internet thus formulating highly complex perspectives on the photographic medium and the world that has already been photographed

**Thomas Ruff / Series** José Manuel Costa, 2013-10 Over the past few decades Thomas Ruff born 1958 has explored new technologies in photography to interrogate how images are read in the age of spectacle and media dissemination Among the most prolific members of the Dusseldorf School Ruff effectively set aside conventional photography in 1989 to work with altered and appropriated imagery using military technology astrophysics and digital reproduction to explore and define the limits of contemporary image making The images in his *Nacht* series for example were taken using night vision infrared technology developed for the Gulf War Over the last two decades Ruff has sourced material from an array of sources from newspapers to Japanese manga comics and the internet *Thomas Ruff Series* collects 59 images from seven of Ruff s best known series Alongside the *Nacht* series and the photograms it includes his series *m a r s* cycles and *cassini* which use 3 D renderings of mathematical curves and enlarged images from NASA satellites **Perspectives on Manet** Therese Dolan, 2017-07-05 Bringing forth fresh perspectives on Manet s art by established scholars this volume places this compelling

and elusive artist's painteduvre within a broader cultural context and links his artistic preoccupations with literary and musical currents Rather than seeking consensus on his art through one methodology or focusing on one crucial work or period this collection investigates the range of Manet's art in the context of his time and considers how his vision has shaped subsequent interpretations Specific essays explore the relationship between Manet and Whistler Emile Zola's attitude toward the artist Manet's engagement with moral and ethical questions in his paintings and the heritage of Charles Baudelaire and Clement Greenberg in critical responses to Manet Through these and other analyses this volume illuminates the scope of Manet's career and indicates the crucial position the artist held in generating a modernist avant garde aesthetic

**Thomas Ruff** Thomas Weski,Valeria Liebermann,2014 The numerous photographic series of Thomas Ruff born 1958 are consistently compelling In larger than life sized portraits we encounter the intent gazes of young adults Sterile building facades serve as a commentary on the misery of urban sprawl Pixelated nudes from pornographic websites render important details almost indecipherable while underscoring the power of these images In exhibitions the photographer shows large scale prints which are produced in a very limited number However he consistently produces small format photographic prints using a range of reproductive techniques which are usually produced in editions of 30 or more to make them affordable for a broader art audience This catalogue raisonné of editions was prepared by Jörg Schellmann in close cooperation with Thomas Ruff and is based on the most up to date research The works are organized chronologically not according to the year the image was created but its year of production The volume presents all signed and numbered editions by the artist from 1988 onward
