and to design a landscape more in accord with the life and sensibilities of their time Together with Thomas Church whose gardens provided the setting for California living they laid the foundations for a modern American landscape design This first critical assessment of modern landscape architecture brings together seminal articles from the 1930s and 1940s by Eckbo Kiley Rose Fletcher Steele and Christopher Tunnard and includes contributions by contemporary writers and designers such as Peirce Lewis Catherine Howett John Dixon Hunt Peter Walker and Martha Schwartz who examine the historical and cultural framework within which modern landscape designers have worked There are also essays by Lance Necker Reuben Rainey Gregg Bleam Michael Laurie and Marc Treib that discuss the designs and legacy of the Americans Tunnard Eckbo Church Kiley and Robert Irwin Dorothy Imbert takes up Pierre Emile Legrain and French modernist gardens of the 1920s and Thorbjørn Andersson reviews experiments with stylized naturalism developed by Erik Glemme and others in the Stockholm park system Gardens are for People Thomas Dolliver Church, Grace M. Hall, Michael Laurie, 1983 **Invisible**

**Gardens** Peter Walker, Melanie Louise Simo, 1996 Invisible Gardens is a composite history of the individuals and firms that defined the field of landscape architecture in America from 1925 to 1975 a period that spawned a significant body of work combining social ideas of enduring value with landscapes and gardens that forged a modern aesthetic The major protagonists include Thomas Church Roberto Burle Marx Isamu Noguchi Luis Barragan Daniel Urban Kiley Stanley White Hideo Sasaki Ian McHarg Lawrence Halprin and Garrett Eckbo They were the pioneers of a new profession in America the first to offer alternatives to the historic landscape and the park tradition as well as to the suburban sprawl and other unplanned developments of twentieth century cities and institutions The work is described against the backdrop of the Great Depression the Second World War the postwar recovery American corporate expansion and the environmental revolution The authors look at unbuilt schemes as well as actual gardens ranging from tiny backyards and play spaces to urban plazas and corporate villas Some of the projects discussed already occupy a canonical position in modern landscape architecture others deserve a similar place but are less well known The result is a record of landscape architecture's cultural contribution as distinctly different in history intent and procedure from its sister fields of architecture and planning during the years when it was acquiring professional status and struggling to define a modernist aesthetic out of the startling changes in postwar America

**An Everyday Modernism** Marc Treib, 1999 The first large scale examination of William Wurster's work *Landscape Architecture*, 1927 **Thomas D. Church, Landscape Architect** Mary A. Vance, 1980 **Gardens Are For People, Third Edition** Thomas D. Church, Grace Hall, Michael Laurie, 1995-06-12 This classic of landscape architecture has been required reading for the residential garden design professional student and generalist since its publication in 1955 Gardens Are for People contains the essence of Thomas Church's design philosophy and much practical advice Amply illustrated by site plans and photographs of some of the 2 000 gardens Church designed during the course of his career the third edition has a new Preface as well as a selected bibliography of writings by and about Church Called the last great traditional

designer and the first great modern designer Church was one of the central figures in the development of the modern California garden For the first time West Coast designers based their work not on imitation of East Coast traditions but on climatic landscape and lifestyle characteristics unique to California and the West Church viewed the garden as a logical extension of the house with one extending naturally into the other His plans reflect the personality and practical needs of the homeowner as well as a pragmatic response to the logistical demands of the site Summerson and Hitchcock Frank E.
