Ridgeway, 1926 **Cinema and Radio in Britain and America, 1920-60** Jeffrey Richards, 2019-01-04 Cinema and radio in
Britain and America 1920 60 charts the evolving relationship between the two principal mass media of the period It explores
the creative symbiosis that developed between the two including regular film versions of popular radio series as well as radio
versions of hit films This fascinating volume examines specific genres comedy and detective stories to identify similarities
and differences in their media appearances and in particular issues arising from the nature of film as predominantly visual
and radio as exclusively aural Richards also highlights the interchange of personnel such as Orson Welles between the two
media Throughout the book runs the theme of comparison and contrast between the experiences of the two media in Britain
and America The book culminates with an in depth analysis of the media appearances of three enduring mythic figures in
popular culture Sherlock Holmes Tarzan and The Scarlet Pimpernel Students scholars and lay enthusiasts of cinema history
cultural history and media studies will find this an accessible yet scholarly read **Exodus from Rome Volume 1** Dr. Todd
D. Baker, 2014-05-01 Written by a former Roman Catholic of eighteen years and former candidate for the Roman Catholic
priesthood Dr Todd Baker objectively and honestly examines the grandiose claims of the Papacy and the Roman Catholic
Church in the critical light of Scripture and the evidence of history to show where Rome has greatly erred This multi volume
work provides a controversial overview on the basic doctrines distinctive of Roman Catholicism so the open Catholic can
learn how these beliefs practices and traditions of Rome contradict Scripture and do not have the support of a consistent
uniform history from the days of Jesus the apostles and the first three centuries of the early church and on With over 1 billion
adherents to the Roman Catholic Church it is incumbent for the Bible believer to know the difference between the real
Gospel of Scripture versus the Gospel of Rome and how they are not one and the same Gospel in the end In a day of man
pleasing ecumenical compromise with Rome this book is sorely needed to remind the Protestant church that the real
differences between Rome and the Bible have not changed since the Reformation and must be reiterated and defended today
on the exclusive ground of Scripture alone being the supreme authority in faith and practice for every Christian believer Dr
Todd D Baker is president of Brit Hadashah Ministries and Pastor of Shalom Shalom Messianic Congregation in Dallas Texas
He holds a Bachelor of Science degree in biblical studies a Master of Theology degree from Dallas Theological Seminary and
a Ph D in Philosophy and Apologetics from Trinity Seminary under the auspices of Liverpool University at Liverpool England
He is the staff theologian and writer for Zola Levitt Ministries and has appeared on the television program Zola Levitt
Presents several times With his extensive experience in Jewish evangelism he conducts Gospel outreaches to Israel three

The World Wide Web WWW and digitisation have become important sites and tools for the history of the Holocaust and its commemoration Today some memory institutions use the Internet at a high professional level as a venue for self presentation and as a forum for the discussion of Holocaust related topics for potentially international transcultural and interdisciplinary user groups At the same time it is not always the established institutions that utilise the technical possibilities and potential of the Internet to the maximum Creative and sometimes controversial new forms of storytelling of the Holocaust or more traditional ways of remembering the genocide presented in a new way with digital media often come from people or groups who are not in the realm of influence of the large memorial sites museums and archives Such private stagings have experienced a particular upswing since the boom of social media This democratisation of Holocaust memory and history is crucial though it is as yet undecided how much it will ultimately reinforce old structures and cultural regional or other inequalities or reinvent them The Digital space as an arbitrary and limitless archive for the mediation of the Holocaust spanning from Russia to Brazil is at the centre of the essays collected in this volume This space is also considered as a forum for negotiation a meeting place and a battleground for generations and stories and as such offers the opportunity to reconsider the transgenerational transmission of trauma family histories and communication Here it becomes evident there are new societal intentions and decision making structures that exceed the capabilities of traditional mass media and thrive on the participation of a broad public
