This One Will Kill You:

Enigma - Ignorance Liquidation - part №1 Oleg Viktorovich Maltsev, Recently I have encountered a certain state of affairs quite an idiosyncratic one try to imagine this there is a social networks page of an Italian master who lives somewhere in a Puria or Calabria not very intelligent person So he has been making a summon in Facebook for masters to unite against me Well I did not quite get for what reason ones would unite against me anyways there is such a happening Probably this is due to the fact that I am researching culture of Italy the true history of Italy So here is a person who pretends to be an owner of the Italy through his social networks account He is quite a strange person he has got on his avatar a picture of a strange guy with a helmet and a spear This very individual demonstrated outmost regret to the fact that foreign people as me would teach someone of Italian culture I was sincerely surprised as I had no intention of teaching someone the Italian culture As first of all I wanted to teach myself However this individual in his certain comments on Facebook was demonstrating real regret as in his opinion I was posing a real threat somehow to Italian history Moreover having some sort of idea that he is an owner of Italy he was showing regret of Sicilian master that have same intention as I do that is restoring and revealing genuine Italian culture and history of martial arts Besides he used to claim that my school appeared just in one day which was a great surprise for me as I believed that this school appeared thousands and thousands years ago Certainly it flatters me him regarding me to be a founder of Venetian school I have always considered myself to be a follower of this school and not a founder and definitely not an owner of it Well since certain Calibrian Purian masters awarded me with a title of the founder of the Venetian school let s pretend me being an immortal one aged 3000 years and that I am great enough to teach all the rest of Italian martial arts culture However it should be pointed out that indeed there are a lot of things to be taught Even though I feel proud that it is claimed that I am a founder of Venetian school by representatives of Purian Calabrian martial arts school I have a lot of things to get presented and explained but on a different topic Having read up to the end this wonderful post in internet I came to a conclusion that it is the right time to start a journey When you see my students when you watch them training some tend to think that they have been doing martial arts like for half a year Obviously it is not the case
