Literacy in the Arts Georgina Barton,2014-04-01 This book explores the many dialogues that exist between the arts and literacy It shows how the arts are inherently multimodal and therefore interface regularly with literate practice in learning and teaching contexts It asks the questions What does literacy look like in the arts And what does it mean to be arts literate It explores what is important to know and do in the arts and also what literacies are engaged in through the journey to becoming an artist The arts for the purpose of this volume include five art forms Dance Drama Media Arts Music and Visual Arts The book provides a more productive exploration of the arts literacy relationship It acknowledges that both the arts and literacy are open textured concepts and notes how they

accommodate each other learn about and from each other and can potentially make education better It is when the two stretch each other that we see an educationally productive dialogic relationship emerge *Creative Thinking and Arts-based Learning* Joan P. Isenberg, Mary Renck Jalongo, 2006 Creative Thinking and Arts Based Learning prepares preservice and inservice teachers to know why children s creative thinking and play are so important know about children s play and creative thinking and also know how to provide these experiences within the curriculum It contains extensive coverage of the roles responsibilities and strategies that lead to a more child centered play based curriculum An Applied Approach Many instructional guidelines and classroom strategies are presented throughout the text for integrating creative thinking and play into learning Cases about preschoolers K 2nd graders and 3rd 4th graders open each chapter and show readers how teachers infuse the arts into learning Meeting Standards This new feature discusses how to provide for creativity in classrooms while also meeting state and national standards Frequently Asked Questions Another new feature poses common questions about issues such as what materials and resources to use how to adapt environments for diverse learners and how to foster and assess creative thought Misconceptions are dispelled with research based answers A Theoretical Approach Solid theory underlies all of the content The authors experience as university professors and practitioners is evident in their clear presentation of relevant theory A Reflective Approach Teacher s Reflections in each chapter tell readers what other preservice and inservice teachers are thinking and doing in their classrooms relative to their experiences with the arts Resources Instructor s Manual and test Bank PowerPoint Slides

Mind Expanding: Teaching For Thinking And Creativity In Primary Education Wegerif, Rupert, 2010-08-01 There is considerable interest in education around the world in flexible thinking and learning skills but very little consensus as to the nature of these skills and how best to promote them in schools This book puts forward a clear and practical framework for understanding thinking creativity and learning to learn as the fruits of engagement in dialogue It also outlines in detail how this framework can be applied to teaching across the curriculum at both primary and secondary level drawing on the best practices associated with the teaching thinking creativity and learning to learn movements explaining their success in terms of dialogic theory In particular the book incorporates aspects of a number of thinking skills approaches such as Lipman s Philosophy for Children approach as well as features of contemporary innovations in education such as assessment for learning and the development of creativity Each chapter opens with a vignette to set the scene and continue into a light and popularly written exposition of theory before moving on to a description of practice and concluding with practical guidelines for how to teach for thinking and creativity in schools and classrooms The first six chapters in the book have more of a focus on developing core theoretical themes and the following six chapters in the second half of the book focus more on practice led themes The relationship between theory and practice is treated as flexible and dynamic theory being developed by practice as much as practice implementing theory
