Teaching for Understanding with Technology Martha Stone Wiske, Lisa Breit, 2013-12-23 Teaching for Understanding with Technology shows how teachers can maximize the potential of new technologies to advance student learning and achievement It uses the popular Teaching for Understanding framework that guides learners to think analyze solve problems and make meaning of what they ve learned The book offers advice on tapping into a rich array of new technologies such as web information online curricular information and professional networks to research teaching topics set learning goals create innovative lesson plans assess student understanding and develop communities of learners

**Teaching with Technology** Priscilla Norton, Karin M. Wiburg, 2003 The distinctive characteristic of TEACHING WITH TECHNOLOGY Second Edition is its clear correlation between theory and practice This text focuses on ways to use technology to foster learning in K 12 classrooms instead of presenting the mechanics of computer operation Norton and Wiburg s chapters are not based on computer applications they are based instead on how technology can support student acquisition of literacy content knowledge problem solving participating in communities and student utilization of information and systems of assessment

*Teaching for Understanding Across the Primary Curriculum* Lynn D. Newton, 2002 The book discusses the complex nature of understanding and what it means to teach for understanding The processes and strategies that can support teaching for understanding are then exemplified in the context of different areas of the primary elementary 4 11 years school curriculum

**Meaningful Learning Using Technology** Elizabeth Alexander Ashburn, Robert E. Floden, 2006-04-24 Many school districts are discovering that providing computer technology and using technology to improve student learning are two very different things In this book national experts use concrete examples to describe specific knowledge beliefs and strategies that will enable teachers and district leaders to support meaningful learning using technology Chapters examine the intersection between course content types of technology and the supports and professional development required to effectively implement technology in the K 12 classroom This authoritative volume explores how technology can contribute to meaningful learning achieving deep understanding of complex ideas that are relevant to students lives chronicles the effectiveness of specific technology based curricula in the sciences and social studies with a focus on history and suggests models and approaches for teacher professional development including a Meaningful Learning Toolbox where teachers can

co author web based curriculum units *The Nature of Technology* Michael P. Clough, Joanne K. Olson, Dale S. Niederhauser, 2013-09-03 How does technology alter thinking and action without our awareness How can instantaneous information access impede understanding and wisdom How does technology alter conceptions of education schooling teaching and what learning entails What are the implications of these and other technology issues for society Meaningful technology education is far more than learning how to use technology It entails an understanding of the nature of technology what technology is how and why technology is developed how individuals and society direct react to and are sometimes unwittingly changed by technology This book places these and other issues regarding the nature of technology in the context of learning teaching and schooling The nature of technology and its impact on education must become a significant object of inquiry among educators Students must come to understand the nature of technology so that they can make informed decisions regarding how technology may influence thinking values and action and when and how technology should be used in their personal lives and in society Prudent choices regarding technology cannot be made without understanding the issues that this book raises This book is intended to raise such issues and stimulate thinking and action among teachers teacher educators and education researchers The contributions to this book raise historical and philosophical issues regarding the nature of technology and their implications for education challenge teacher educators and teachers to promote understanding of the nature of technology and provide practical considerations for teaching the nature of technology

*Teaching and Learning with Technology* Judy Lever-Duffy, Jean B. McDonald, 2008 Written by teachers for teachers this text offers a clear and current look at the range of educational technologies and how teachers can effectively use technology to enhance learning Written by Teachers for Teachers this text provides readers with a clear understanding of educational media and how it can be used effectively to enhance learning The text explores the current and emerging technologies and multimedia available to teachers while consistently maintaining an instructional focus Pre service and in service teachers
