

The Volcano

Listen, listen, to the mountain
It is rumbling deep inside.
Listen, listen, to the mountain
It is grumbling deep inside.

It is time, it is time,
For the mountain to erupt.
It is time, it is time,
For the mountain to blow up.

Red hot lava thrown out
Reaching up into the sky,
Red and glowing like a fireball,
Can you see it, way up high?

The Invisible Volcano James Schevill, 1985 *The Groove of the Poem* Jacques Rancière, 2016-11-22 Music is the brute that shows It is the avowal of materials And stutters between its clanging of things How should one think this musical groove of the poem whose back and forth motion shuffles the material of ordinary language and revives the frozen speech of old chants This question by renowned French thinker Jacques Rancière is the entry point for his earnest and careful reading of one of France's most singular and important contemporary poets For Rancière Philippe Beck sets himself the task of a poetry after poetry whereby Beck rewrites and transforms the poems of the past reanimating faded genres poetizing the prose of popular tales and even commentaries regarding poems To read and follow this groove traced as such cannot simply be done by way of taking the poems as objects of study It supposes a dialogue regarding what these poems attempt to do as well as an idea of a poetry which serves as their foundation This book on Philippe Beck is thus also a book made with him **Volcanic**

Triangle Republics I Jonathan Kief, 2025-09-16 In Korea the end of the Second World War in 1945 brought both liberation from Japanese colonial rule and the division of the nation by the triumphant Allies The peninsula was not only decoupled from its former colonial metropole but also carved up into two halves that were subsequently incorporated into the rival blocs of the emerging Cold War order Although the two Koreas are typically seen as isolated from each other texts continued to circulate between them with the assistance of Korean diasporic and other colleagues in Japan throughout the ensuing decades I Jonathan Kief follows the triangular flow of texts linking North Korea South Korea and Japan from 1945 until the

1980s revealing overlooked paths of interaction and exchange He highlights the creative ways in which poets playwrights novelists critics and academics crossed boundaries of language ideology genre and geography to challenge the stability of the Cold War By showing how writers in North and South Korea engaged in dialogue via the mediation of a multiethnic set of colleagues in Japan Triangle Republics offers a new perspective on this era emphasizing its vibrant dynamic and interconnected nature
