The Philosophical Significance of Immortality in Thomas Aquinas Obi J. Oguejiofor, 2001-02-14 The Philosophical Significance of Immortality in Thomas Aquinas is a comprehensive study of the theme of immortality in Thomas Aquinas. Immortality was a major component of his philosophy and was also employed in defense of the doctrine. Despite the numerous problems in the project of defending immortality of the rational soul, the theme of immortality is still vitally important for any philosophical scheme that intends to be relevant to the human being.

Thoughts on Death and Immortality Ludwig Feuerbach, 2023-07-28 Never translated before, *Thoughts on Death and Immortality* was the first published work of Ludwig Feuerbach (1804-1872). The scandal created by portrayal of Christianity as an egoistic and inhumane religion cost the young Hegelian his job and to some extent his career. Joining philosophical argument to epigram, lyric and satire, the work has three central arguments: first, a straightforward denial of the Christian belief in personal immortality; second, a plea for recognition of the inexhaustible quality of the only life we have; and third, a derisive assault on the posturings and hypocrisies of the professional theologians of nineteenth-century Germany. Never translated before, *Thoughts on Death and Immortality* was the first published work of Ludwig Feuerbach (1804-1872). The scandal created by portrayal of Christianity as an egoistic and inhumane religion cost the young Hegelian his job and to some extent his career.

Purpose in the Universe Tim Mulgan, 2015-10-22 Two familiar worldviews dominate Western philosophy: materialist atheism and the benevolent God of the Abrahamic faiths. Tim Mulgan explores a third way. Ananthropocentric Purposivism claims that there is a cosmic purpose, but human beings are irrelevant to it. *Purpose in the Universe* develops a philosophical case for Ananthropocentric Purposivism that it is at least as strong as the case for either theism or atheism. The book borrows traditional theist arguments to defend a cosmic purpose. These include cosmological, teleological, ontological, meta-ethical, and mystical arguments. It then borrows traditional atheist arguments to reject a human-centred purpose. These include arguments based on evil, diversity, and the scale of the universe. Mulgan also highlights connections between morality and metaphysics, arguing that evaluative premises play a crucial and underappreciated role in metaphysical debates about the existence of God. Ananthropocentric Purposivism mutually supports an austere consequentialist morality based on objective values. He concludes that by drawing on a range of secular and religious ethical traditions, a non-human-centred cosmic purpose can ground a distinctive human morality. Our moral
