BOOK JACKET **Turkey and the Turks** W. S. Monroe, 2015-01-30 MEASURED by population Turkey is also a very small country The whole Ottoman Empire European Asiatic African and Mediterranean and including states that are only nominally subject to the sultans barely reaches forty million souls or less than the population of the British Isles while the immediate Turkish possessions in Europe have a population of but six million people or about that of the New England states of the American Union Osmanli Turks number only a tenth of the population of European Turkey the other nine tenths being Greeks Albanians Bulgarians Wallachians Hebrews Servians Magyars Gypsies Armenians Circassians and divers other races Constantinople the capital has a population probably of a million and a quarter of inhabitants or about that of Philadelphia Among the other important towns in European Turkey are Saloniki an important shipping centre with 105 000 inhabitants Adrianople which has had a large domestic traffic since the completion of the railway to Northern Europe IT is important for purposes of reference if not directly interesting to relate so much of Ottoman history as may be necessary for the comprehension of the rise and decline of the empire This recital will be limited to historic facts touching the acquisition and loss of territory Readers who wish a brief survey of the historical development of Turkey will find the same in Stanley Lane Poole's attractive summary The Story of Turkey and those seeking an exhaustive treatment of the subject are referred to Von Hammer's comprehensive work in seventeen volumes History of the Ottoman Turks When it is recalled that at the beginning of the 13th century the Osmanli Turks were pastoral tribes living in tents and movable huts in central Asia slightly fixed to the soil holding the camp rather than the land as native country and recognizing allegiance only to powerful chiefs that at the beginning of the 14th century they had migrated into Asia Minor and had become somewhat fixed to a small tract of land in Anatolia at the beginning of the 15th century they had acquired vast possessions in Anatolia and Rumelia Bulgaria Egea Serbia and Wallachia in Europe at the beginning of the 16th century they had added Trebizond Karaman and Armenia in Asia and Greece including Constantinople Bosnia Herzegovina Albania and the Crimea in Europe and by the middle of that century Tunis Egypt Algiers and Tripoli in Africa Kurdistan Arabia Syria and Bagdad in Asia and Moldavia Hungary and Transylvania in Europe when significant facts like these are recalled it is obvious that a brief historical survey of the rise and decline of the Ottoman Empire will form a necessary introduction to a study of Turkey and the Turks *Turkey and the Turks* Jerome Van Crowninshield Smith, 1854 Turkey and the Turks Z. The Turks and Europe Gaston Gaillard,2015-01-28 THE peoples who speak the various Turkish dialects and who bear the generic name of Turcomans or Turco Tatars are distributed over huge territories occupying nearly half of Asia and an important part of Eastern Europe But as we are only considering the Turkish question from the European point of view no lengthy reference is needed to such Eastern groups as those of Turkish or Mongol descent who are connected with the Yenisseians of Northern Asia and the Altaians The Russians call these peoples Tatars and they no doubt constituted the Tubbat nation referred to by the Chinese historians under the name of Tou Kiou up to the seventh century after Christ These very brief facts show the importance of the race and are also sufficient to emphasise the point that these people are akin to those Turks of Western Asia who are more closely connected with the Europeans The Western Turkish group includes the Tmaunrcsoof Persia and Russian or Afghan Turkistan the Azarbaijanians who are probably Turkised Iranians living between the Caucasus Mountains and Persia and lastly the Osmanli Turks who are subjects of the Sultan speak the Turkish language and profess Islam Close to this group but farther to the East the central group also concerns us for some of its representatives who now inhabit the boundaries of Europe made repeated incursions into Europe in various directions In the plains lying between the River Irtish and the Caspian Sea live the Kirghiz Kazaks and in the Tien Shien Mountains the Kara Kirghiz who have preserved many ancient Old Turkish customs and seem to have been only slightly Mohammedanised The Usbegs and the Sartis of Russian Turkistan on the other hand have been more or less Iranised Finally on the banks of the Volga are to be found the Tatars of European Russia Among them the Tatars of Kazan who are descended from the Kiptchaks came to the banks of the Volga in the thirteenth century and mingled with the Bulgars These Tatars differ

from the Tatars of Astrakhan who are descendants of the Turco Mongols of the Golden Horde and are connected with the Khazars and from the Nogais of the Crimea who are Tatars of the steppes who more or less intermarried with other races the Tatars of the Tauris coast being the hybrid descendants of the Adriatic race and the Indo Afghan race They are to be found near Astrakhan and in the Caucasus Mountains and even perhaps as far as Lithuania where though still being Mohammedans they have adopted the language and costume of the Poles
