The Un In Action:

Law and Practice of the United Nations Simon Chesterman, Ian Johnstone, David Malone, 2016 This book combines primary materials with expert commentary demonstrating the interaction between law and practice in the UN organisation as well as the possibilities and limitations of multilateral institutions in general Each chapter begins with a short introductory essay by the authors that describes how the documents that follow illustrate a set of legal institutional and political issues relevant to the practice of diplomacy and the development of public international law through the United Nations This second edition updates the materials in the first edition and introduces new features that reflect a changing global landscape

United Nations Peacekeeping in the Post-Cold War Era John Terence O'Neill, Nick Rees, 2005-10-05 This new study questions whether peacekeeping fundamentally changed between the Cold War and Post Cold War periods Focusing on contrasting case studies of the Congo Cyprus Somalia and Angola as well as more recent operations in Sierra Leone and East Timor it probes new evidence with clarity and rigour The authors conclude that most peacekeeping operations whether in the Cold War or Post Cold War periods were flawed due to the failure of the UN member states to agree upon achievable objectives the precise nature of the operations and provision of the necessary resources and unrealistic post 1989 expectations that UN peacekeeping operations could be adapted to the changed international circumstances The study concludes by looking at the Brahimi reforms questions whether these are realistically achievable and looks at their impact on contemporary peace operations in Sierra Leone East Timor and elsewhere

The United Nations, Peace and Security Ramesh Thakur, 2006-06-08 Preventing humanitarian atrocities is becoming as important for the United Nations as dealing with interstate war In this book Ramesh Thakur examines the transformation in UN operations analysing its changing role and structure He asks why when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community He considers the tension between the US with its capacity to use force and project power and the UN as the centre of the international law enforcement system He asserts the central importance of the rule of law and of a rules based order focused on the UN as the foundation of a civilised system of international relations This book will be of interest to students of the UN and international organisations in politics law and international relations departments as well as policymakers in the UN and other NGOs
