Modern Jewish Philosophy and the Politics of Divine Violence Daniel H. Weiss, 2023-04-06 Is commitment to God compatible with modern citizenship In this book Daniel H Weiss provides new readings of four modern Jewish philosophers Moses Mendelssohn Hermann Cohen Franz Rosenzweig and Walter Benjamin in light of classical rabbinic accounts of God s sovereignty divine and human violence and the embodied human being as the image of God He demonstrates how classical rabbinic literature is relevant to contemporary political and philosophical debates Weiss brings to light striking political aspects of the writings of the modern Jewish philosophers who have often been understood as non political In addition he shows how the four modern thinkers are more radical and more shaped by Jewish tradition than has previously been thought Taken as a whole Weiss book argues for a fundamental rethinking of the relationship between Judaism and politics the history of Jewish thought and the ethical and political dynamics of the broader Western philosophical tradition

The World and the Individual Josiah Royce, 1901

The Rationality of Love Hichem Naar, 2022-10-03 Love has been the subject of much fascination It is indeed one of those things which elude us in many ways The long lasting disagreement over love s nature is unsurprising In light of this a piecemeal approach to love is in order Instead of asking what love is down the line we might need to investigate its various features and its connection to other things The Rationality of Love addresses the question whether love belongs paradoxically enough to the realm of reason whether love belongs to the class of responses such as belief and action that admit of norms of justification and rationality Are there normative reasons to love someone Can it be an appropriate or fitting response to an

individual Can it be rational Or is love like perceptual experiences sensations and urges the sort of thing we just have and for which we cannot be rationally criticizable Hichem Naar provides a sustained defense of the rationality of love There are reasons to love others reasons provided by the unique value of each individual This will in turn rule out popular accounts of love which deny love s rationality and vindicate those accounts that make room for it Drawing on various domains of philosophical inquiry such as the philosophy of mind the philosophy of normativity and epistemology Naar provides a careful assessment of the various positions in the debate over reasons for love and develops his own answer to the normative question about love
