Typically British Eric Jacobs, Robert M. Worcester, Market & Opinion Research International, 1991-10 **The Transformation of British Life, 1950-2000** Andrew Rosen, 2003 During the second half of the 20th century life in Britain was transformed by radical changes in standards of living affecting housing food and transport as well as by major shifts in social cultural and moral values This study examines the diverse developments which so altered the country and its people examines the remarkable extent to which a marked decline of popular support for orthodox institutions such as the monarchy religion marriage and trade unions resulted in a far more flexible and diverse society a society in which women the young and members of ethnic minorities played increasingly important roles It also stresses the extent to which British society has been influenced by foreign developments Separate chapters on the impact of American culture and European institutions as well as modern architecture and planning all explore the ways in which British life has been profoundly affected by factors which are not normally considered by social historians as well as students of modern British culture and society RSA Journal Royal Society of Arts (Great Britain), 1991 *Modern Love* Marcus Collins, 2006-06 Private life has altered beyond all recognition during the past one hundred years Britain in 1900 was emerging from a Victorian era in which prudery patriarchal authority and pettifogging rules of etiquette were widely perceived to have circumscribed relations between men and women The twentieth century witnessed a reaction against this system of separate spheres spearheaded by reformers eager that the sexes become each other's equals and intimates *Modern Love* traces the trajectory of this new model of personal relationships over the course of the twentieth century from its emergence out of the crucible of the suffrage campaign through its reshaping by the women's liberation movement It explores its impact on smut merchants warring couples and teenagers as well as its reception by such diverse figures as Bertrand Russell and Germaine Greer It draws on sources as varied as suffragette propaganda banned sex manuals marriage counseling literature and pin up magazines Marcus Collins teaches modern British history at Emory University Ulster Unionism and British National Identity Since 1885 James Loughlin, 1995 Much has been written on the Irish problem and on the political manifestations of Ulster Unionism but the history of Unionist ideology has been relatively neglected James Loughlin aims to correct this and to discuss the relationship of Unionism to the idea of Britishness demonstrating that the central element of Unionism was its rejection of Irish nationalism and its firm embracing of British national identity particularly with regard to the monarchy and membership of the wider British nation The author pays close attention to primary sources especially local newspapers and thus reveals the regional variations in the character of Unionism **England** Alan Edwin Day, 1993 Catalogue of Periodicals and Continuations , 1995 **To be and to Live in Europe** Zbigniew Drozdowicz, 2004 **The Permissive Society and Its Enemies** Marcus Collins, 2007 Deconstructing the myth of Britain's swinging sixties this collection of essays examines the revolution of cultural permissiveness in postwar Britain and how societal debates over drug use pornography and women's

rights of this period have influenced current thinking Britain's period of nebulous social change is analyzed by defining permissiveness locating the movement's origins identifying its proponents and opponents and assessing long term consequences Discussions of ludic liberalism lesbian politics beatnik ideology and the rise of the moral crusader highlight the developing subcultures of Britain's society

The Lost Victory Correlli Barnett, 1995 **The British National Bibliography** Arthur James Wells, 1992 **Indo-European Origins** John V. Day, 2001 A comprehensive survey of the evidence from biological anthropology for Indo European origins based on the author's Ph D thesis prepared under Professor James Mallory The author first considers the various ways that languages can spread and the possible biological implications of these expansions He then embarks on an exhaustive survey of over 2 600 books and articles relating to the physical anthropology of the earliest identified speakers of Indo European languages based on ancient texts artworks and lexicons Covering Europe and Asia from the Neolithic onwards His study surveys dermatoglyphics mummified corpses skeletal remains and genetic material for evidence of ancient population movements An attempt is then made to integrate findings from biological anthropology with data from linguistics archaeology and social anthropology to test the validity of migration theories in relation to the dispersal of the Indo European languages and the possible location of a hypothesized proto Indo European language The bibliography lists over 2 600 books and articles
