Wages Against Housework:

Wages Against Housework Silvia Federici, 1975 **Wages for Housework** Emily Callaci, 2025-03-18 The illuminating honest nuanced Robin D G Kelley story of a radical campaign to change the way we value work Women do more than three quarters of all the world s unpaid care work contributing over 9 trillion to the global economy each year Dishes don t clean themselves dinner is not magically made children must be cared for But why is this work not compensated Wages for Housework is the fascinating international story of Selma James Silvia Federici Mariarosa Dalla Costa Wilmette Brown and Margaret Prescod whose movement demanded wages as a starting point for remaking the world as we know it Drawing on their campaign s roots in 1970s America Italy and the UK with original archival research and interviews historian Emily Callaci explores the revolutionary potential of paying women for their work in the home and how Wages for Housework reimagined potential futures under capitalism and beyond in ways that continue to be relevant today Wages for Housework is an essential feminist history of an overlooked movement for economic and social justice **Wages Against Artwork** Leigh Claire La Berge, 2019-08-23 The last twenty years have seen a rise in the production circulation and criticism of new forms of socially engaged art aimed at achieving social justice and economic equality In *Wages Against Artwork* Leigh Claire La Berge shows how socially engaged art responds to and critiques what she calls decommodified labor the slow diminishment of wages alongside an increase in the demands of work Outlining the ways in which socially engaged artists relate to work labor and wages La Berge examines how artists and organizers create institutions to address their own and others financial precarity why the increasing role of animals and children in contemporary art points to the turn away from paid labor and how the expansion of MFA programs and student debt helps create the conditions for decommodified labor In showing how socially engaged art operates within and against the need to be paid for work La Berge offers a new theorization of the relationship between art and contemporary capitalism *Art Work* Katja Praznik, 2021-06-29 In *Art Work* Katja Praznik counters the Western understanding of art as a passion for self expression and an activity done out of love without any concern for its financial aspects and instead builds a case for understanding art as a form of invisible labour Focusing on the experiences of art workers and the history of labour regulation in the arts in socialist Yugoslavia Praznik helps elucidate the contradiction at the heart of artistic production and the origins of the mystification of art as labour This profoundly interdisciplinary book highlights the Yugoslav socialist model of culture as the blueprint for uncovering the interconnected aesthetic and economic mechanisms at work in the exploitation of artistic labour It also shows the historical trajectory of how policies toward art and artistic labour changed by the end of the 1980s Calling for a fundamental rethinking of the assumptions behind Western art and exploitative labour practices across the world *Art Work* will be of interest to scholars in East European studies art theory and cultural policy as well as to practicing artists Capitalism and Its Critics John Cassidy, 2025-05-13 A Financial Times Most Anticipated Book of 2025 A sweeping dramatic history of capitalism as seen

through the eyes of its fiercest critics At a time when artificial intelligence climate change inequality trade wars and a right wing populist backlash to globalization are raising fundamental questions about the economic system Capitalism and Its Critics provides a kaleidoscopic history of global capitalism from the East India Company and Industrial Revolution to the digital revolution But here John Cassidy a staff writer at The New Yorker and a Pulitzer Prize finalist adopts a bold new approach he tells the story through the eyes of the system s critics From the English Luddites who rebelled against early factory automation to communists in Germany and Russia in the early twentieth century to the Latin American dependistas the international Wages for Housework campaign of the 1970s and the modern degrowth movement the absorbing narrative traverses the globe It visits with familiar names Smith Marx Luxemburg Keynes Polanyi but also focuses on many less familiar figures including Flora Tristan the French proponent of a universal labor union Thomas Carlyle the conservative prophet of the moral depredations of the market John Hobson the original theorist of imperialism J C Kumarappa the Indian exponent of Gandhian economics Eric Williams the Trinidadian author of a famous thesis on slavery and capitalism Joan Robinson the Cambridge economist and critic of Keynes and Samir Amin the leftist French Egyptian economist and analyst of globalization Blending rich biography panoramic history and lively exploration of economic theories Capitalism and Its Critics is true big history that illuminates the deep roots of many of the most urgent issues of our time **Care** Premilla

Nadasen,2023-10-10 An eye opening reckoning with the care economy from its roots in racial capitalism to its exponential growth as a new site of profit and extraction Since the earliest days of the pandemic care work has been thrust into the national spotlight The notion of care seems simple enough Care is about nurturing feeding nursing assisting and loving human beings It is the work that makes all other work possible But as historian Premilla Nadasen argues we have only begun to understand the massive role it plays in our lives and our economy Nadasen traces the rise of the care economy from its roots in slavery where there was no clear division between production and social reproduction to the present care crisis experienced acutely by more and more Americans Today s care economy Nadasen shows is an institutionalized hierarchical system in which some people s pain translates into other people s profit Yet this is also a story of resistance Low wage workers immigrants and women of color in movements from Wages for Housework and Welfare Rights to the Movement for Black Lives have continued to fight for and practice collective care These groups help us envision how given the challenges before us we can create a caring world as part of a radical future *Our Generation* ,1976 **Open Marxism: Theory and**
