of Grahamstown and of Edinburgh.)**

What Is Science:

What is Science? Donald J. DeGracia, 2014-05-23 In spite of the amazing technological marvels of the modern world that have stemmed from science there is no agreed upon definition of what science is In this lively colorful and engaging work Don DeGracia contends that science is a very weak form of what has been described for thousands of years in Hindu India as samadhi Samadhi is an advanced technique of Raja Yoga in which the meditating subject fuses with the object of meditation in a process that has been called knowing by being By understanding science as a weak form of samadhi and comparing it to the knowledge acquired from yogic practices many of the limitations of science are brought to the fore These include the link between mind and body the role of the senses as middle men between the mind and the objects of perception why mathematics is unreasonably effective for describing the physical world and how and why power is unlocked by the human mind when correct knowledge is obtained

What Is Science? A Guide For Those Who Love It, Hate It, Or Fear It

Elof Axel Carlson, 2021-03-24 What is Science A Guide for Those Who Love It Hate It or Fear It provides the reader with ways science has been done through discovery exploration experimentation and other reason based approaches It discusses the basic and applied sciences the reasons why some people hate science especially its rejection of the supernatural and others who fear it for human applications leading to environmental degradation climate change nuclear war and other outcomes of sciences applied to society The author uses anecdotes from interviews and associations with many scientists he has encountered in his career to illustrate these features of science and their personalities and habits of thinking or work He also explores the culture wars of science and the humanities values involved in doing science and applying science the need for preventing unexpected outcomes of applied science and the ways our world view changes through the insights of science This book will provide teachers lots of material for discussion about science and its significance in our lives It will also be helpful for those starting out their interest in science to know the worst and best features of science as they develop their careers

What is Science? Jordanka Zlatanova, 2020-02-24 In a multitude of ways science affects the life of almost every person on earth From medicine and nutrition to communication and transportation the products of scientific research have changed human life These changes have mostly taken place in the last two centuries so rapidly that the average person is unable to keep informed A consequence of this information gap has been the increasing suspicion of science and scientists The lack of true understanding of science especially of fundamental research motivates this effort to narrow this gap by explaining scientific endeavor and the data driven worldviews of scientists Key Features Fills an existing void in the understanding of science among the general population Is written in a nontechnical language to facilitate understanding Covers a wide range of science related subjects The value of basic research How scientists work by sharing results and ideas How science is funded by governments and private entities Addresses the possible dangers of research and how society deals with such risks Expresses the viewpoint of an author with extensive experience working in laboratories all over the world
