## **What Is Scientology:**

**What is Scientology?** Boyd Grant, 2013-12-10 By now it is a safe bet that you have at least heard of Scientology Nine times out of ten what you have heard is negative Very rarely do you ever hear something positive about the Church of Scientology or Scientologists This often leads to a greater misunderstanding of Scientology Scientologists and what the mission of the Church of Scientology actually is Scientology is arguably the most controversial of all the religions When you mention Scientology to someone you are almost guaranteed to get some kind of reaction or opinion The Church of Scientology has been maligned and demonized by many detractors But Scientologists themselves are passionate about their beliefs and defend Scientology with that very same passion When it finally comes down to understand what Scientology is there is little if any objective information out there It is all written from the perspective of detractors supporters or people who just uninformed about Scientology and Scientologists in general A new book What Is Scientology History Beliefs Rules Secrets and Facts will help shed some light on one of the most controversial topics of all time Scientology Look no further for one of the few objective accounts that will finally shed some light on the Church of Scientology What Is Scientology History Beliefs Rules Secrets and Facts helps you better understand Scientology It cuts out all the unhelpful chatter and helps you understand in simple terms exactly what Scientology is This short book will help answer the most important questions you might have about Scientology Some of the more important questions include everything from the Scientology belief system the History of Scientology and why people join the Church of Scientology and much more You will also have a greater understanding of why people hate Scientology and why former members speak out about it For those of you looking to learn more about Scientology this is the book you are looking for **Introduction to New and Alternative Religions in**

**America** William M. Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religions are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more misunderstanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith's legitimacy beliefs methods of conversion and other facets of a religious movement's viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs

movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today

Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved

Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined

Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood

Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today

Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology UFO religions and Heaven s Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more

*Free Zone Scientology* Aled Thomas,2021-04-08 In this novel academic study Aled Thomas analyses modern issues surrounding boundaries and fluidity in contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free Zone as an example of a developing and fluid religion directly addressing questions concerning authority leadership and material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the study of similar movements formed in recent decades
