**The Eighteenth Century**, 2005      **The Broadview Anthology of British Satire, 1660-1750**

Evan R. Davis, Nicholas D. Nace, 2023-03-03 *The Broadview Anthology of British Satire 1660-1750* provides instructors and students with a thorough introduction to the highpoint of British literary satire. Reflecting current pedagogical practice and scholarship, the anthology presents works by thirty satirists, including eleven women. The contents are expansive; they include canonical, frequently taught texts, less anthologized works by major satirists, and works by writers who have been traditionally excluded from anthologies. Biographical headnotes, crisp footnotes, and carefully edited texts make the book suitable for use in both undergraduate and graduate classrooms. By turns raucous, piercing, acerbic, winking, vexatious, and sly, the satires in the anthology will provoke fresh, dynamic approaches to this crucial literary period. *The Muses of Resistance* Donna Landry, 1990. In this challenging 1990 study, Donna Landry shows how an understanding of the remarkable but neglected careers of laboring-class women poets in the eighteenth century provokes a reassessment of our ideas concerning the literature of the period. Poets such as the washerwoman Mary Collier, the milkwoman Ann Yearsley, the domestic servants Mary Leapor and Elizabeth Hands, the dairywoman Janet Little, and the slave Phyllis Wheatley can be seen adapting the conventions of polite verse for the purposes of social criticism. Some of their strategies relate to earlier texts, revealing ideological blind spots in the tropes of male poets. Elsewhere, they made interesting innovations in poetic form. Mary Leapor's *Crumble Hall*, for instance, by attending to sexual politics, extends the critique of aristocratic privilege in the country-house poem beyond that of Pope and Crabbe. In Ann Yearsley's verse, landscape description, historical narrative, and philosophical meditation are infused with political comment. Historically important, technically impressive, and often aesthetically innovative, the poetic achievements of these plebeian women writers constitute an exciting literary discovery. **The Cambridge History of English Literature: The period of the French revolution** Sir Adolphus William Ward, Alfred Rayney Waller, 1914. **The Cambridge History of English Literature** Sir Adolphus William Ward, Alfred Rayney Waller, 1914. *The Scriblerian and the Kit-Cats*, 2004. **The Facts on File Companion to British Poetry** Virginia Brackett, 2008. Presents a comprehensive A to Z reference with approximately 400 entries providing facts about British poets and their poetry from the seventeenth and eighteenth centuries. *The Cambridge History of English Literature*, 1914. **Northamptonshire Past & Present**, 2004. *The History of British Women's Writing, 1690-1750* Jennie Batchelor, Cora Kaplan, Caroline Bicks, Jennifer Summit, Rosalind Ballaster, Jacqueline M. Labbe, 2010-09-10. Rethinking the history of women's writing and literary history itself, this volume 2 examines the diversity of early women's writing, from verse and songs to household records and recipes, offering a new paradigm for understanding women's shaping roles in the literary, religious, and political movements of the sixteenth century. *British Labouring-Class Nature Poetry, 1730-1837* Bridget Keegan, 2008-05-29. This study shows how poets worked within and against the available forms of nature writing to challenge their place within physical, political, and cultural landscapes. Looking at the treatment of different ecosystems, it argues that writing about the environment allowed laboring-class poets to explore important social and aesthetic questions.
