Books in Print, 1991 *The World, 1997-1998*, 1997 **Subject Guide to Books in Print**, 2001 **Information Sources of Political Science** Stephen W. Green, Douglas J. Ernest, 2005-07-15 A thoroughly revised and updated new edition of the world's leading comprehensive bibliography of American and international politics. The eagerly anticipated new edition of the widely acclaimed *Information Sources of Political Science* is the most comprehensive English language political bibliography available, offering the surest way for students and researchers to get straight to the information they need. Like no other volume, it provides a fully rounded view of the field, both in the United States and internationally, including relevant works in history, economics, sociology, and education. Its 2,500 entries cover a wide variety of source types, including indexing and abstracting services, major bibliographical tools, encyclopedias, dictionaries, handbooks, directories, statistical compilations, and more. In addition, this edition is the first to feature substantial coverage of electronic resources, both databases and Internet sites. Each source receives its own annotation, with entries grouped in categories to bring together like works for easy comparison. This work is a cornerstone reference for academic and public libraries. **Books in Print, 2004-2005**, 2004

The majority of the contributions to this major work comes from legal practitioners and scholars specialising in East Asian business law. *Forthcoming Books* Rose Army, 1997 **The A to Z of World Development** Wayne Ellwood, 1998 If you ever feel baffled by strings of letters and acronyms like OECD, GDP, CITES, UNHCR, FRELIMO, and OPEC, and by terms like Greenhouse Effect, Invisible Trade, or Structural Adjustment, this book will unlock the door easily. Globalization Unmasked James Petras, Henry Veltmeyer, 2001-07-31 No word today is as much used and abused as globalization As the authors see it it obscures more than it reveals about what is going on worldwide They argue that it provides a cover for a new form of imperialist exploitation and the institution of US hegemony over a global process of capitalist accumulation In the last decade of the 20th century capitalists in Europe and the United States managed to create favourable conditions for the takeover and recolonization of economies all across the developing world In the process a new and emergent class of international capitalists mostly located in North America and Western Europe managed to restore highly profitable returns on their investments and operations and to create islands of growing poverty and misery This book provides a theoretical perspective on this process The imperialist analytical framework the authors argue provides a better understanding of what is really going on and points towards forces of resistance and opposition that can be mobilized through political action to bring about needed change
