research **World Factbook 1998** ,1998-12-01 **English in Cameroon** Hans-Georg Wolf,2013-06-10 The multilingual situation in Cameroon and the status of English as a co official language constitute a unique and fascinating case for sociolinguistic investigation Drawing from first hand material the author investigates several aspects of this complex configuration including the historical development of English in Cameroon the various languages and lingua franca areas the linguistic policy the de facto status of English and the situation in the anglophone provinces The speech community of the Anglophones is highlighted as a rare example of an ethnicity tied to the second language Apart from important sociolinguistic findings the work includes a novel corpus based analysis of Cameroon English Certain lexical phenomena are explained by the cognitive coding of culture particularly the African cultural model of community which also underlies the self perception of the Anglophones a perspective hitherto neglected in the study of the New Englishes **CIA World Factbook 2001** ,2002 CIA World Factbook 2001 **The Israeli-Palestinian War** Anthony H. Cordesman,2005-10-30 The Israeli Palestinian conflict is more than a local or regional dispute Its ongoing and escalating nature increases the risk that the violence will spill over its present borders and contribute to both extremism and terrorism While the Intifada from 1987 to 1993 was largely a popular uprising and a political struggle the recent clash is a war with a steady escalation between conventional and unconventional forces It is in the interest of all major powers the international community and the United Nations to press both sides to accept a realistic peace plan Noted Middle East expert Anthony Cordesman details this continuing struggle by explaining the issues at stake for each side the various combatants both directly and indirectly engaged as well as the course of the war in its various incarnations The situation on the ground is complex and the quest for peace is ever more uncertain If the Intifada was a struggle for recognition that a peace had to be reached that was just for both sides the Israeli Palestinian War has polarized both sides away from peace convincing them of the justice of their own cause and tactics and the fundamental injustice of the other side s tactics and goals Each side has used human rights international law and civilian casualties as political weapons The history of a near century of conflict is used to justify war rather than a search for peace *Northeast Asia Regional Security and the United States Military* ,2002 This is the 47th volume in the Occasional Paper series of the United States Air Force Institute for National Security Studies INSS Among its many contributions to United States security two noted repositories of strategic expertise within the United States Army are its foreign area officer cadre and the Department of Social Sciences faculty at the United States Military Academy This collection of papers on Northeast Asian regional security taps the combined strength of both its authors are four Army officers with demonstrated regional expertise all currently or formerly assigned to West Point s Department of Social Sciences The combined set of papers covers a broad and relevant swath of territory both geographic and conceptual The first paper by Jay Parker addresses the regional security context with special emphasis on that strategic landscape as viewed from the perspective of Japanese security and the United States role both in Japanese security and within the broader region Sue

Bryant then fits the Korean peninsula into that regional security context adding special emphasis on the Korean road toward unification and on the continuing U S military presence in Korea both for peninsular and regional security reasons Finally Russ Howard and Al Wilner add China to the mix and also add the third level of analysis their focus is on post September 11 2001 issues and opportunities and the specific military to military dimension of the United States overall military presence and policy Together the papers cover the region as well as policy recommendations from macro U S security and military policy to force presence to the significant roles of individual service members

Handbook of Empirical Research on Islam and Economic Life M. Kabir Hassan,2016-12-30 In Islamic jurisprudence a comprehensive ethic has been formulated governing how business and commerce should be run how accountability to God and the community is to be achieved and how banking and finance is to be arranged This Handbook examines how well these values are translated into actual performance It explores whether those holding true to the system are hindered and put at a disadvantage or whether the Islamic institutions have been able to demonstrate that faith based activities can be rewarding both economically and spiritually
