World Its History In Maps:

The World : Its History in Maps Morris R. Buske, William H. (William Hardy) McNeill, A. Wesley Roehm, 1963 [A History of the World in 12 Maps](#) Jerry Brotton, 2014-10-28 A New York Times Bestseller Maps allow the armchair traveler to roam the world the diplomat to argue his points the ruler to administer his country the warrior to plan his campaigns and the propagandist to boost his cause rich and beautiful Wall Street Journal Throughout history maps have been fundamental in shaping our view of the world and our place in it But far from being purely scientific objects maps of the world are unavoidably ideological and subjective intimately bound up with the systems of power and authority of particular times and places Mapmakers do not simply represent the world they construct it out of the ideas of their age In this scintillating book Jerry Brotton examines the significance of 12 maps from the almost mystical representations of ancient history to the satellite derived imagery of today He vividly recreates the environments and circumstances in which each of the maps was made showing how each conveys a highly individual view of the world Brotton shows how each of his maps both influenced and reflected contemporary events and how by considering it in all its nuances and omissions we can better understand the world that produced it Although the way we map our surroundings is more precise than ever before Brotton argues that maps today are no more definitive or objective than they have ever been Readers of this beautifully illustrated and masterfully argued book will never look at a map in quite the same way again A fascinating and panoramic new history of the cartographer s art The Guardian The intellectual background to these images is conveyed with beguiling erudition There is nothing more subversive than a map The Spectator A mesmerizing and beautifully illustrated book The Telegraph **A History of the World in Twelve Maps** Jerry Brotton, 2012-09-06 Fascinating panoramic wonderful Tom Holland A magical book which explores how the world was seen at twelve points in history through twelve extraordinary maps and the minds of those who made them What you see depends on where and when you are looking from As Jerry Brotton s enthralling book shows maps have shaped our view of the world throughout history and are themselves shaped by the ideas prejudices systems of power and creativity of their age Brotton examines twelve world maps from global history from the mystical representations of ancient civilizations and the fourteenth century Mappamundi to the satellite derived imagery of today to show how by reading them we can better understand the worlds that produced them You will not look at a map in quite the same way again The intellectual background to these images is conveyed with beguiling erudition maps prove to be less conveyors of information than theatrical performances There is nothing more subversive than a map Andrew Linklater Spectator Fascinating and thought provoking An achievement of evocation Anthony Sattin Literary Review Elegant powerfully argued David Horspool Guardian Books of the Year Rich and adventurous John Carey Sunday Times A highly rewarding study you will emerge with a detailed insight into how maps reflect expose and manipulate the societies in which they are made Simon Garfield Mail on Sunday **The World--its History in Maps** William Hardy McNeill, A.
