Duncan, 1918 **Teaching Values in New-type History Tests** Elene Michell, 1930 Value Education N. Venkataiah, 1998 **Teaching Values** Ron Scapp, 2003 In Teaching Values Ron Scapp wrests the discussion of values and values based education away from traditionalists who have long dominated educational debates While challenging the Right's domination of the discussion of values education Scapp examines some issues not typically raised by educators and critics on the Left including the positive role of citizenship and national identity in U S education and culture International Handbook of Research on Teachers and Teaching Lawrence J. Saha, Anthony Gary Dworkin, 2009-04-17 The International Handbook of Research on Teachers and Teaching provides a fresh look at the ever changing nature of the teaching profession throughout the world This collection of over 70 articles addresses a wide range of issues relevant for understanding the present educational climate in which the accountability of teachers and the standardized testing of students have become dominant **The Ultimate Jewish Teacher's Handbook** Nachama Skolnik Moskowitz, 2003 This complete and comprehensive resource for teachers new and experienced alike offers a big picture look at the goals of Jewish education Issues in Mathematics Teaching Peter Gates, 2002-09-11 This book presents the key debates that the mathematics teacher will need to understand reflect on and engage in as part of their professional development Issues in Mathematics Teaching is suitable for those at initial training level right through to practising mathematics teachers Its accessible structure enables the reader to pursue the issues raised as each chapter includes suggestions for further reading and questions for reflection or debate Becoming a Teacher: Knowledge, Skills and Issues Maggie Clarke, Sharon Pittaway, 2014-04-23 Marsh's Becoming a Teacher 6e continues to offer pre service teachers a practical and user friendly guide to learning to teach that students find invaluable throughout their entire degree Marsh covers a comprehensive introduction to teaching methodology preparing pre service teachers for the challenges they face in a 21st century classroom All chapters in this new edition have been updated with new approaches and current references by the two new authors Maggie Clarke and Sharon Pittaway The approach in this 6th edition is more reflective and gives readers an even greater opportunity to interact with issues raised in the text **Methods of Teaching** Werrett Wallace Charters, 1912 Teaching Dance as Art in Education Brenda Pugh McCutchen, 2006 Brenda McCutchen provides an integrated approach to dance education using four cornerstones dancing and performing creating and composing historical and cultural inquiry and analysing and critiquing She also illustrates the main developmental aspects of dance Scales for the Rating of Teaching Skill Leo John Brueckner, 1929 Teaching Values Gary A. Davis, 1996-01-01 **Values Education and Quality Teaching** Terence Lovat, Ron Toomey, 2009-04-07 Some revision of public schooling history is necessary to challenge the dominant mythology that public schools were established on the grounds of values neutrality In fact those

responsible for the foundations of public education in Australia were sufficiently pragmatic to know that its success relied on its charter being in accord with public sentiment Part of the pragmatism was in convincing those whose main experience of education had been through some form of church based education that state based education was capable of meeting the same ends Hence the documents of the 1870s and 1880s that contained the charters of the various state and territory systems witness to a breadth of vision about the scope of education Beyond the standard goals of literacy and numeracy education was said to be capable of assuring personal morality for each individual and a suitable citizenry for the soon to be new nation As an instance the NSW Public Instruction Act of 1880 cf NSW 1912 under the rubric of religious teaching stressed the need for students to be inculcated into the values of their society including understanding the role that religious values had played in forming that society s legal codes and social ethics The notion therefore that public education is part of a deep and ancient heritage around values neutrality is mistaken and in need of serious revision The evidence suggests that public education s initial conception was of being the complete educator not only of young people s minds but of their inner character as well
